At a Convention of Presbyterian women, held in the interests of Home Missions, in Pittsburgh, during the sessions of the late Gen'l Assembly (Mrs David Herron, Pittsburgh, in chair, Mrs Paxton, Allegheny, Secy.) the following Resolution was adopted. W.A.

"That a Committee of ladies be appointed, from various parts of the country, to confer with the Ladies Board of Missions N. Y. as to the propriety of that Board devoting itself exclusively to Home Missions, and should the N. Y. Board fail to comply with the overture of the Comtee, it shall be empowered to call a meeting of delegates from the different churches, at a suitable time and place, to organize a new Board."

The following persons constituted the Committee.

The Secy was instructed to send a copy of this Resolution to the President of the Ladies' Board of Missions N. Y. and to arrange with her a suitable time and place for the proposed Conference. After correspondence with Mrs Graham, the 11th of July was selected, the place of meeting being 23 Centre St, N. Y.

On the 10th of July the Committee met at Elizabeth N. J. and after a season of prayer for wisdom and guidance, the overture of the Comtee to the Ladies' Board was presented and adopted. Also a Resolution in substance as follows. "In case of refusal by the Ladies' Board, the Comtee before proceeding to call the meeting alluded to in the Resolution adopted at Pittsburgh, shall lay the whole subject of the propriety and method of a new organization before the Board of Home Missions, and its decision and counsel shall be made the basis of future action."

On the morning of the 11th of July the Comtee from the Ladies' Board and the Pittsburgh Comtee met as per agreement. The meeting was opened with prayer. The overture of the Pittsburgh Comtee was formally presented by the Chairman — (See paper prepared by Mrs d —) Following this were communications from absent Members of Committee, and other individuals interested in the Conference and its object. also from Societies — Presbyterial and Local urging upon the Ladies —

Board the acceptance of the Proposition of the Com^tee.

In reply, the Pres't of the Ladies Board presented the following Resolution which had been adopted at a previous meeting of the Board after a "full, earnest, and prayerful discussion of the important question" embodied in the Pittsburgh Resolution. (See Mrs G.'s paper.) This Resolution was followed by a Proposition from the Ladies Board to the Com^tee "That the Ladies of the Pittsburgh Com^tee be lovingly and cordially invited to come in and work with us as they can do most efficiently in our Home Department, by forming Branches in the States not now connected with us, and only doing Foreign work in other directions. That instead of organizing a new Board for Home Missions, there should be organizations formed in the different Synods for Home Work, which shall have their own officers, and the Presidents of which shall be Vice Presidents of the Ladies' Board. These Presidents shall organize the work in their own Synods and Presbyteries and report to the Board in N. Y. with whom they shall be in correspondence connection and co-operation." Verbal promise was also made to accede to any reasonable wishes of the Com^tee in regard to change of Constitution &c. to meet the demands of the enlarged work.

This proposition having been received the Sec'y was instructed to send a copy of it

to absent members of Committee, requesting an expression of their views upon it, after careful consideration.

It was also Resolved "That if a majority of the Committee entertain the Proposition, another Conference be held, with the view of preparing a paper in definite form, to bring before the Board of Home Missions, and also the Synods."

This pleasant Conference, characterized thro'out by a spirit of kindness, candor and christian courtesy, closed with prayer.

A Meeting of the Pittsburgh Comtte was held immediately afterward, when the following Resolution was adopted, and instructions given that a copy of it, should accompany the Proposition of the Ladies' Board as sent to the Committee. "The members of Comtte present, in view of the enlarged plans for future work in the Home Department of the New York Board, and its expressed design to reach the Churches thro' the Synods, and the Home Field thro' the Board of Home Missions as recommended by Genl Assembly, are prepared to entertain the accompanying Proposition, and to hold further conference on the subject." Prayer was again offered, and the Committee adjourned.

In the responses to these communications, it was found that a majority of the Comtte was not in favor of accepting the Proposition

The next step taken by the Comm^ee was in the direction of the Resolution adopted at Elizabeth, providing against refusal of the Committee's overture by the Ladies Board. The whole subject was laid before the Board of Home Missions, in a paper prepared by the Chairman. (See Mr Lowell's paper to the Board of Home Missions.) The action of the Board upon the subject is before us in printed circular.

The last paragraph of which reads as follows. "It may be permitted to us to suggest that the several Comm^ees of the Synods, as soon as possible after their appointment, may bring themselves into sympathy and co-operation by the appointment of a General Executive Committee who shall be their organ of communication with the Board, and that they may report whatever may be done, in this direction for approval to the Synods, and the Gen^l Assembly."

Information coming from several members of the Board of Home Missions, that it was expected of the Pittsburgh Comm^ee to call together the Synodical Committees, the Chairman ordered that arrangements be made for this meeting, and invitations sent out.

[illegible] at Saratoga, the larger number were there because of real business of their own. Therefore was it that for two days there was a manifest clearing of the galleries of the First Presbyterian church, while the Methodist Episcopal church in Washington street, was filled with the "sisters," met at first in the interest of the work abroad, and again in regard to that to be done in these United States. Some of these earnest workers, who had long sought to diffuse the light of life among the nations afar, had been reminded by the General Assemblies of 1875 and 1876 of the need of concentrated associated efforts in regard to missions in our own land; not alone for its own sake and the safety of our very homes, but in order to keep up the supplies required for Foreign Missions; and five and a half months ago they had organized a Woman's Executive Committee in direct connection with the Synods of the Presbyterian Church and its Board of Home Missions. While in this way hoping to unify the work already done in many of our churches, it was not the intention of this committee to disturb any society already in auxiliary relations to the three Ladies' Boards at work for Foreign Missions with [illegible]. There is a call for systematized effort in regions beyond these, and there is more than enough work for all to do, and all may do it in harmony with each other so far as the Spirit and love of Christ fills every heart.

This new executive committee held the first annual meeting called for in its "Plans of Work" at Saratoga on Friday, May 23. While its report since its organization, so short time since, was truly encouraging, $3,186.39 having been received from 29 Synods, yet the out-look was rather toward the future than to the past. The committee has undertaken a mission among the Navajos Indians, facts concerning which will soon be given to the public. Also a new station will soon be commenced in Alaska, the location to be decided upon by the Board of Home Missions, after further examination by Drs. Kendall and Jackson, now on their way to that far off land. Buildings for mission premises are much needed in Utah and New Mexico; also [illegible]

of Kansas and Indian Territory, - great interest was expressed with regard to the great work to be done among the Indians.

Didn't know as yet the character of the field to which he was going this season. Read a letter from Mrs. McClung in which she stated that she wanted pioneer work done. Looking after Presbyterians in Jamestown, Wartburg, and Anderson Cos. Mr. Rogers thought there would be but little if anything contributed to the support of the minister. The men were farmers principally, not educated to giving. He knew of no minister under the Synodical Societies but Rev. Mr. Roberts. Stated that but a fourth of the population knew how to read. Thought that the rail-road now running thro' some of the counties would soon effect a change. Interview with Mr. Rogers over, minutes of last monthly meeting were read and accepted. Treasurer's Report for April showed $855.62. Amount reported for Logan $789.59. Report accepted.

Mr. Snow, in response to inquiries made, expressed as his opinion that the Institute at Salt Lake City is strictly a Mission-School. Spoke of the great advantage that would result from the training of teachers, and the necessity felt in that direction. Alluded to the probability that the school would soon be self-supporting. Said that there was no line drawn for Mormon and Gentile girls. A large number of Mormons had, he said, availed themselves of it. *May* Home Missions. *1880*

MORNING SESSION.

Friday, May 27, had been set apart for the meetings of delegates from the various organizations of women in the Presbyterian Church North, in behalf of Home Mission work. The meetings were held in the Presbyterian Church, Madison.

The morning was devoted to the Annual Meeting of the Woman's Executive Committee. The first half hour was given to devotional exercises. Mrs. H. A. MINER, of the Congregational Church of Madison, expressed the pleasure and profit received by Christian ladies of this city from the Ladies' Missionary Meetings, and gave hearty greetings.

Mrs. M. E. HOLMES, of Rockford, Ill., was elected to act as temporary Secretary.

The President, Mrs. ASHBEL GREEN, of New Jersey, read a part of the fourth chapter of John's Gospel, and after a hymn was sung, she spoke somewhat as follows:

I am on the programme for an address, but I have never made one. I will say only a few words. And first, I would express the pleasure of us of the East, at meeting you on what was once Home Missionary ground. Upon us all God had laid the responsibility of instructing and rescuing from degredation the 115,000 scholars already connected with our Home Mission work. The Committee of General Assembly urges the Home Mission Board to push the school work as rapidly as the women will take it up. Our work last year was certainly very encouraging. We want to raise 50,000 during this new year. There is no question but that we will raise it. If we can get the money, there are the teachers waiting, ready to go. For example, we ought to have eight new schools very soon in Southern Utah. If you could only know the influence these lady teachers have wherever they reside! I am very sorry that none of them could be with us to-day. But we shall hear from missionaries who have recently come from their fields. The importance of prayer for our ladies in their work cannot be over-estimated; and united prayer could be secured if all will consecrate the Sabbath hour before the morning service to prayer for Home Mission work. The woman of Samaria, after her interview with our Lord, went to her own city; and from what [illegible] were converted [illegible]

those who reap alike receive the reward. And yet the reward should not be the motive for consecration; but the true object of service is the glory of God.

Mrs. SANDERSON, of Janesville, Wis., responded with the following address of welcome:

DEAR FRIENDS: Having received no official notification from the Committee of Arrangements, until last evening, of the pleasant duty which would devolve upon me to-day, I come before you with only the slight preparation which a few after breakfast moments would allow. But out of the fulness of the heart the mouth speaketh, and mine would be indeed a stammering tongue, if out of the fulness of many overflowing hearts, I could not say with convincing fervor, we are glad to see you. I can say it, I do say it. I reach forth my hands, rejoicing that they may feel the touch of yours. I look into your eyes, thanking God that we can see you face to face. I lift up my voice, and its ring is that of many, many voices, saying, Welcome, welcome to our homes, our hearts, to a share in our work.

My unwillingness, because of lack of worth; my willingness, because of the honor of the trust, is each intensified by the fact that to-day is only ushered in, not occupied by women. Yesterday was filled with our work, and we were strong enough to speak for ourselves. To-day is to be filled with our work, but somehow we have declined into the old Presbyterian weakness, should I say subjection? and have fallen back upon our brethren for support. Yesterday we heard what women had done for Christless women: To-day we are to consider what women are to do for men and women, Christless and Christfull. For those who have not yet received the glad tidings, and for those who, having received it, have left their pleasant homes, and gone into the waste places of our land to tell it to their fellow men; to consider what women are to do, not only for the heathen, but for prodigal sons born in the home, sharing the goods, wasting the goods, but not yet come unto a remembrance of the Father's house. To-day we are to consider what women are to do for "Jerusalem," but the necessities and possibilities of the work are to be set forth by men. This ought not so to be, and I greet you as those who are to help us to establish a new order of things; as those who are to help us to become strong to do and say; another "woman's body," perfect and active in itself. Through you we look forward to the time when the day for Home Missions will be held as completely in our hands as the day for Foreign Missions; or rather when the two days of Foreign and Home Missions shall be one long day of Missions for Christ—not separated, but united by the rainbow promise of peace. And looking at it thus, have we not ourselves just come to the right mind? Ought it not to be not for man's sake, nor for woman's sake, but one higher, deeper, longer, broader—for Christ's sake. And with that motive we must use God's appointments, where there is no division [illegible] actions, save for evil; where [illegible] only addition and multiplication for the good. [illegible] with

[illegible] some one [illegible] of the earth. We do not want two rooms "as" but one twice as big—ten times as big—a hundred times as big—until the earth cannot contain the host, and God will let down the new Jerusalem.

Thank God you have come; we put our hands in yours; together we look unto the Cross, and forgetting the things that are behind, the successes of which, perhaps, we think more highly than does God, and the failures of which, perhaps, we think more lightly, than does our Savior, forgetting the things that are behind, we press forward unitedly towards the greater works that remain.

Mrs. F. E. H. HAINES, of New York, the Corresponding Secretary, read the minutes of the First Annual Meeting (of last year), which were approved. She also acknowledged the implied reproof that there were to be no lady speakers, and explained that while last year there were several of the active workers in attendance, that was impossible this year; and rather than insist upon having women do all the talking, it was preferred to ask missionaries who were recently from the frontier. She then read the following:

*Report of the "Woman's Executive Committee of Home Missions" to the Board of Home Missions of the Presbyterian Church, April* 1, 1880:

GENTLEMEN:—At the end of this, our first year of full service, we have special reason to acknowledge "the good hand of our God upon us," and "with us," strengthening our hearts, guiding our steps, and giving us much hoped for favor in the churches, and success in our department of work.

From our experience thus far, we thank the Lord that our Synods and the General Assembly have been led to give women such a recognized position in the regular work of the Presbyterian Church.

Far from being trammelled by the "Plans of Work" which require from us, by appointment and under the supervision of the Synods, close co-operation with the Board of Home Missions, we have derived from this fact inspiration, support and courage such as never before attained in merely voluntary effort in Mission work. Ministers high in station in a sister denomination have said that the work of women in the Presbyterian Church is now placed on the right basis, giving an example it would be well for others to follow. Twenty-two of the Synods, according to the recommendation of the General Assembly, have now appointed Synodical Commissioners of women's work in Home Missions. In two of the Synods, those of Kansas and Philadelphia, a full representation in every Presbytery has not yet been effected.

encouragement to like [illegible] where organization for Home Missions, in some way, in a church or Presbytery, has been secured, a large increase of contributions to the cause has been the result; and many testify to the reflex influence for good felt in their own hearts and lives. The society in the Presbytery of Cincinnati, aiming at first to raise but $300, found its receipts, at the close of its first year, $1,000.

In all our efforts, experience teaches that the aid and co-operation of the pastors are truly essential to success.

Public meetings, or short conventions, have been held in a number of the Synods—probably more than fifty meetings in all. In proportion as the wants of our country are made known, so do the streams begin to flow into the channel of Home Missions; and as the living voice usually attracts more attention than the written or printed page, we hope in the future, by your permission, much continued aid from your synodical or other missionaries, as well as from the pastors of local churches, in order, by the blessing of God, to make our meetings a success.

Our Treasurer, Mrs. M. E. Boyd, whose report we also present you, has received during the past year donations from societies and individuals in thirty-two Synods amounting to $11,467.49. Value of "Boxes of clothing" distributed, $10,190.77.

The money received has been appropriated toward the support of fourteen teachers in Utah, five teachers in New Mexico, two teachers in Idaho, two teachers in Arizona, one teacher in Colorado, one teacher in Alaska—twenty-five in all; and also toward the building and furnishing of chapels and school-rooms in Ogden, Springville, Pleasant Grove, Salad City, and Ogden, Utah, and [illegible] of schools at Ocaté, and Zuni, New [illegible] Fort Wangel and Sitka, Alaska, and [illegible] stations.

More than 5,000 mite boxes have been distributed, from which we hope, in the aggregate, large results during the coming year.

About 30,000 "circulars" have been sent out.

It is encouraging to find that in many places, the boys as well as the girls are beginning to work for Home Missions. The sale of typical "bricks" in aid of the mission chapel at Logan City, Utah, has given them something to do. We propose soon to issue "certificates of stock" in the "addition needed to the mission premises at Salt Lake City, under the care of Prof. J. M. Cowper, an enterprise you have already recommended to our attention, and which we believe to be of great importance.

The new Mission at Sitka, Alaska, has been commenced under most favorable auspices.

We are anxious, as soon as possible, to begin work in the Indian Territory. Special places are recommended by Rev. Dr. Timothy Hill, of Kansas, where Missionaries can at once be employed to advantage.

We desire to thank the editors of our church papers for the good help given to our Executive Committee, and also the [illegible] other kind friends who have [illegible] assisted in arrangements for [illegible] and other meetings.

[illegible] especially [illegible]

[illegible] infuse. We believe much more in the whole cause of Home Missions would attend its increased circulation.

We acknowledge with special appreciation, also, the uniform courtesy and respect with which our questions and suggestions have been received by yourselves, the members of the Board of Home Missions, to whom we now present, according to direction, this our Annual Report, made brief, not through want of material, but in order not to take up more of your time than necessary.

Our "books" are open to your inspection.

In behalf of the Executive Committee.

F. E. H. HAINES,
*Secretary.*

Mrs. Haines also read the following supplementary

REPORTS FROM SYNODS.

These are necessarily imperfect; a few extracts only can be given:

1. *Synod of Albany.* Synodical Committee formally organized January, 1880; Mrs. Frank Potter, President; Mrs. G. C. Yeisley, Secretary.

Progress has been made, and the future outlook is encouraging. Tidings have been received from thirty-three churches; $960.02 have been raised; boxes valued at $854.90. Religious literature is sent out West. Four hundred mite boxes distributed. Hundreds of bricks are doing the work not alone of erecting Logan Chapel, but of benevolent character-building among the young of the Sabbath schools and churches. Many thanks are expressed that Dr. Sheldon Jackson was allowed to visit so many of the churches in this Synod.

2. *Synod of Baltimore.* Society in Washington city, two years old. Their watchword is to have a Woman's Society for Home Missions in each of the twenty-seven churches in Presbytery. What they ask for, are men and women who will work for Christ, who will pray, who will make the Kingdom of God the first thing in the daily calendar of their lives.

The efforts of this society are made in New Mexico, and they are well satisfied with their teacher, Mrs. R. W. Hall. Its pledges as to money have been redeemed. The report advises attention to Dr. Jackson's proposal that kind, social and informal letters should be written to our missionary teachers, not looking for an answer to them except a general one to the Secretary.

3. *Synod of Central New York.* Report received from Springfield, in Presbytery Otsego. Help has been given towards a parsonage in Nebraska, besides direct donations to Home Missions through Woman's Executive Committee.

4. *Synod of Cincinnati.* A Presbyterial Society was formed about a year ago in the Presbytery of Cincinnati. The result of their efforts is most encouraging to like action on the part of others—attempting at first to raise $300, they found their receipts at the end of the year $1,000—enabling them to support two teachers, and aid in other Home Missionary work.

The Presbytery of Chillicothe also reports good work—28 societies in 15 churches, two of which had been [illegible]ering, aroused from their dormant state. [illegible] societies take the *Rocky Mountain* [illegible] Boxes valued at [illegible]

[illegible] revelation of [illegible] and self-denial unsuspected [illegible] which brought tears to our eyes." [illegible] not forgotten, and were received with special appreciation. The children were delighted with their shoes and confectionery, and went to bed with them hugged up in their arms. The young ladies have done especial good service.

5. *Synod of Cleveland.* Here a young girl's Band of Penny Gleaners is doing much to help the work in Alaska. This organization is at Rome. We trust that many others will do as these Romans do.

6. *Synod of Colorado.* This covers a field which emphatically is a mission field, and yet many sisters are working there very efficiently to raise money for the work. Mrs. D. E. Finks, of Fort Collins, reports from there $18.00, and hopes more will be given another year. Mrs. [illegible] Gage is getting the young people to work, and a public meeting was to be held during the session of Synod at Pueblo City. Colorado Springs Society very efficient, raising $175. Other offerings have come with such loving words as follows: "This is but what is sent in the name of the Lord, will be followed by many prayers, and we trust by many dollars during the year."

7. *Synod of Erie.* Among others, we have one report from an old established sewing society, that still "brings forth fruit in old age," according to promise, having raised $270.

The Synodical Committee is organizing for work. Two public meetings have been held.

8. *Synod of Harrisburg.* The work is taking deep hold of the women in this Synod. Two conventions have been held, addressed by Dr. Sheldon Jackson and others. The Synodical Committee is organized for work—Mrs. Dr. Norcross, President; Miss Fanny A. Dyer, Secretary. Mrs. Wm. Dorris reports a society formed just after one of the conventions by efforts of one of a committee appointed then for that purpose. The society at Huntingdon, just reorganized, has been sending "Boxes" for forty years. And there are several societies among young people and children.

9. *Synod of Illinois Central.* There is here also a rising interest in the cause of Home Missions. Some of the workers, as in Peoria and Decatur, are thoroughly in earnest. Some of this is due, by God, to the good help given by the [illegible]gers.

10. *Synod of Illinois North.* This field is indeed as a fruitful field, which needs more cultivation in the direction of Home Missions; yet some of the [illegible] workers in the cause are to be found within its limits.

11. *Synod of Illinois South.* There is life here, also, that needs to be [illegible]. There are many difficulties in the way of holding many meetings, but even here the Lord has His own hidden ones who are calling upon His name.

12 and 13. *Synods of Indiana North and South.* The women of these Synods begin to be well organized. Crawfordsville Presbytery has 7 societies or bands; Albany, 80; White Water, 2; Muncie, 1; Indianapolis, 7; Logansport, 14; [illegible] and gives good promise of work for the coming year. A Home Missionary meeting is to be held, D. V., during the session of the Synod. A very [illegible] for reports has been [illegible]

A trial of this kind has been made, to very good effect. A letter from Mrs. S. F. Scovel, received yesterday, reports about $1,000 as collected from various sources, not quite all sent, through Executive Committee.

*Synod of Tennessee.* The women have been organized for some time, doing missionary work within their own bounds. It is believed this will be continued to increased advantage, while some effort for missions beyond will also be made. The Synodical Society has been very efficient, and shows a loving desire for unified effort with the Executive Committee.

*Synod of Texas.* It has been pleasant to receive some of the most ... reports from this far-off section of our land. The women there seem much in earnest, and in all the very weakness of many of the churches, and in spite of the difficulty of meeting together for conference, seem to be growing "strong in the Lord, and the power of His might." Mrs. Anna M. Litter, of Denison, is President of the Synodical Committee.

O. D. EATON.

New York, May 15, 1880.

All these reports were accepted and adopted.

Mrs. PRATT, of Albany, N. Y., then read this communication from the Synodical Committee of Home Missions, of the Synod of Albany, N. Y.:

Long years ago, in the land of Judea, good old Jesse grew anxious about his sons, who had gone up with Saul to the battle at Shochoh. He doubtless had heard of the vaunted strength of the Philistines, the braggart giant, Goliath, and his father's heart longed for tidings of those dear to him.

To gain information, Jesse depatches his youngest son, the youthful David, bearing "corn and loaves" to his brothers, and "cheeses" to the captain of three thousand.

Gladly David sets out on his errand. He reaches the camp — listens with the righteous indignation of a loyal soul, to the irreverent taunts and boastings of Goliath of Gath — choses five smooth stones from the brook, for his bag, and with one chosen stone, slung with the precision of a practiced hand, in the name of the Lord of Hosts, he slays the enemy of Israel.

The Home Mission Committee of the Synod of Albany, we think, must be the youngest of the family of Home Mission organizations, in connection with the Woman's Executive Committee.

It claims kinship with those who have gone up to the scene of action at Madison, in this pleasant spring time, and is anxious to learn "how it fares" with his fellow-workers. It sends to its kinswomen, not indeed "corn and loaves," but a brief summary of efforts begun and deeds wrought, during the past few months, and this it tenders as its "pledge" to the parent society. Work of some kind carried forward, for Home Missions in twenty-seven churches; a membership reported of five hundred and fifty-two, exclusive of societies not reporting number of members; $980.02 raised in the Synod; boxes valued at $657.00 sent to needy Missionaries; mite boxes largely distributed; Logan Bricks sold and much seed-sowing done. It cannot present "cheeses" to the "Captain of [illegible]," but it extends congratulations, greetings and cordial wishes, that God will bountifully bless and magnify the work done and to be done by the Woman's Executive Committee.

The oldest auxiliary has no broader aim, no higher motive for its organization, than has the youngest, for is not the object of each and all, the slaying of God's enemies wherever they are found, and the honor, glory and extension of the Saviour's Kingdom?

The Goliath of ignorance error and sin, with which, in our Home Mission work, all have to contend, like his prototype upon the battle field of Shochoh, vaunts himself against the armies of the living God, whether he seeks, as his vantage ground, our great west, with its extensive frontiers, or selects Alaska, Utah, or the interior of our southern country.

How, then, as Societies, are we to carry on the warfare against this opposer of [illegible] save as David did, in the name [illegible]? Yet the [illegible] warrior had [illegible] again the old story of faith and works.

Can we not apply to ourselves the lesson of the five smooth stones? If we search for them, no better ones, we believe, can be found, than the five P's — pearls, let us call them — and these will we put in our bags for the conquest.

First, we must have prudence. David was not rash, as some may think. He knew somewhat of his own capabilities. His recent successful encounters with the lion and the bear, assured him of these, and he was able to comprehend the situation. We must study our ground; understand it; know its needs, and [illegible] adaptation to them; and then wisely use our best appliances for meeting them.

Patience: We cannot expect great results at once — the seed-growing first, then the harvest — "First the blade, then the ear; after that, the full corn in the ear." We must be willing to wait, relying upon the promise, "in due season ye shall reap, if ye faint not."

Perseverance: The work is vast. God's work, and therefore worthy of all steadfastness in the prosecution of its interests.

Christ's Work: The salvation of souls, demanding our steady, persistent endeavors. Spasmodic efforts are rarely successful. The "race is not always to the swift, nor the battle to the strong." The plodding tortoise outwent the sleeping hare.

Property: Involving consecration of all we have and are. We must be willing to give whatever we possess — time, talents, energies, money — according to our ability, is the measure of our responsibility. "Bought with a price," shall we give to the Lord that which costs us nothing?

Prayer: Can we imagine David entering into this contest, which resulted so gloriously in the defeat and death of the enemy of God and His hosts, without prayer?

We *know*, in what spirit and in whose name, went this young defender of the faith.

In this same spirit and in this same name, must we, as individuals and societies, enter into the work of Home Evangelization, into this conflict with evil and the powers of darkness. Ready for the combat, armed with the five stones in our bag, let us select as the chosen one to hurl at the enemy, that one, which is almighty in the destruction of strongholds, Prayer. A truly praying soul will embrace within it, Prudence, Patience and Perseverance, and one who prays honestly and devoutly, will give generously and loyally.

In the spirit and manner of David, would the Home Missionary auxiliary societies of the Synod of Albany go up "to the help of the Lord against the mighty."

Thus would they urge all their sister organizations, to press forward, each one encouraging the other, with that assurance, so comforting and so inspiring to every Christian soldier, that "the Lord saveth not with sword and spear, for the battle is the Lord's, and He will give it into our hands.

KATHARINE G. YEISLEY.

Hudson, New York.

Addresses followed by three gentlemen.

Rev. R. G. MCNIECE, of Salt Lake City, said that he would confine his remarks to work in that city. It was described as the seat of the territorial government, and the religious centre of Mormonism [illegible] for the Mormon system [illegible] and carefully sugar-coated with Christianity, to be of human origin. The great Mormon Tabernacle, now rising there, will be one of the five finest structures in the United States. The city is beautiful by nature and art. The surrounding scenery is grand. For the population of 25,000, there are only four Protestant churches, the Episcopal, Congregational, Methodist and Presbyterian. Each has a mission day school. The object of these schools is to rescue children from Mormon influences not only, but to provide so thorough a system of education that the scholars can pass from them directly to the Eastern Colleges. The principal of the Presbyterian School, Prof. Coyner, was spoken of as a man of unusual executive ability, and eminently successful in his work. He is a Presbyterian Elder. An appeal was made to the ladies to help in fitting out a boarding school for girls in Salt Lake City. Contributions of carpets, furniture, etc., can be left in care of A. H. Andrews & Co., Chicago, and will be sent on at half-freight rates by car loads. Thus hundreds of dollars could be saved

At Mrs. GREEN's suggestion, it was moved and carried that the ladies in attendance on the meeting express their sympathy with this plan and promise to aid as far as possible.

Rev. A. M. DARLEY, of Colorado, said that he deemed it appropriate to speak of the Bible work among the Mexicans, as the first Bible Colporteur in the United States among the Spanish speaking people was a woman, Miss Rankin, who labored on the Texas border of the Rio Grande.

The introduction of the Bible among the Mexicans was due to private individuals largely, among whom was mentioned the celebrated "Solitario" of the mountains near Los Cresces, New Mexico, and that pioneer of Protestant Missionaries, Mr. Gorman, formerly of Madison, a Baptist clergyman, the fruits of whose blessed work are still being gathered.

In the earlier days of work among the New Mexicans, one Missionary was stoned, one Presbyterian Elder was killed, and also one Methodist Minister.

The people loved the Bible, giving [illegible] and ten dollars, oxen, and even one hundred dollars for a single copy, of which, costing the latter amount, Mr. Darley exhibited. A man now a Presbyterian Elder, had given [illegible] cash and the use of a yoke of oxen fifty cents a day for five months for [illegible]. Prior to the time of purchase, he had used a rosary, with its five idolatrous mysteries, to aid his devotions. The rosary is used at their prayer meetings, pauses in which are made lively "with drums and shot-guns" to scare away the devils.

Where a year ago there were but five Bibles among 5,000 people in the San Luis valley, to-day there are over 1,000 copies of Spanish Gospels, Testaments and Bibles, through the help and liberality of the American Bible Society. The work of work among these people should be the Bible, the Preacher, the Church, and the School — the last as a safeguard in the education of the children of the people.

### ...HE UNION MEETING OF THE AFTER-NOON.

After devotional services for a half-
...hour, Mrs. GRAHAM opened the public
...meeting by reading from the Scriptures,
...nd Mrs. Haines offered prayer.

Mrs. GRAHAM acted as presiding officer
...nd Miss H. Quigley of Louisville, Ky.,
...s temporary secretary.

Reports were made from various ladies'
...organizations.

Mrs. Graham promised that she would not detain the ladies by giving a report of what had been done in the Synods and Presbyteries connected with the Ladies' Board, as they had already held their annual meeting in New York, but she would simply give the results of the amounts raised by their auxiliary societies, which would give some idea of the work done. The contributions for the past year, ending in April, were $9,901.89. In the last ten years, from 1870 to 1880, the Ladies' Board had raised and paid out $48,235 56 for Home Missions. In the three previous years $7,000 had been expended, making a total of $55,235 56 in thirteen years.

There had also been boxes sent to missionaries estimated at $22,010, within the past year. Mrs. Graham then proceeded to state how the work originated from the representations of a young Christian lady who accompanied her husband to the most distant military outposts, and stopping at Santa Fe and seeing the utter destitution of all religious privileges, and the sin, idolatry and superstition of the people—not a Bible to be found, not a Christian missionary in the whole of that vast territory, and yet it had been left at the door of our churches, and for twenty years the stars and stripes had waved over it—a little organization of ladies was formed, and gave the pledge to do what they could to send the Gospel to New Mexico. The Home Board was appealed to, and sent the first missionary to Santa Fe, on behalf of this little band of women, who afterwards forwarded Bibles and equipments for a school, and sent a missionary teacher to aid Mr. McFarland in the work. The following year there was another appeal to the Home Board for Las Vegas, and Mr. Annico was sent to lay the foundation of a Presbyterian Church, afterwards built by this society, when it was enlarged into the Ladies' Board of Home and Foreign Missions. To the church was added the school building and the parsonage. About the same time, Mr. McFarland leaving Santa Fe, a large and valuable property was purchased from him by the ladies, which is now the Mission of Santa Fe. This board then took the support of the Mission at Pueblo, under the Rev. Mr. Roberts, who had been a pioneer in that valley, travelling from point to point, carrying the Bible in his hand, and so great was the anxiety to learn of that new religion that frequently after speaking and expounding the Bible, and singing hymns, the whole evening must came to his bedside to learn more of the "Old, Old Story," yet new to them.

A glance only was given to these missions, as afterwards the Ladies' Missions, to which a printing press was sent, and where Mr. Menuel now publishes a Spanish paper for the children, and teaches the Indians under his care. At Zurrie house has been built, by the ladies' societies, for Mr. Ely's family, and the Presbytery of Rochester has given a grist to save the hard working Indian upon whom rests the burden and labor supporting the family, and who Scripture form grind the meal two stones, and were often at work greater part of the night to pre... and for the next day's ... bread. Now they can be ... with ... easily to go to ...

Board, but at ... voluntary service ... Mrs. Roberts has a ... and ... school at Laos, which ... branch department for ... men as Evangelists. This ... work in New Mexico, ... limited only by the want ... ter the many open doors ... schools and stations.

We began work in Utah ... tions to the Presbyterian Ch... Lake City, afterwards by ... ships in the school under ... whose wife is the missionary of the Board; and now we propose to contribute all we can to the new school building which is to be erected as a Boarding and Industrial School, to train girls as teachers who can be sent out through the Territory to establish a chain of schools, which shall extend throughout the length and breadth, and fill the country with Christian schools, for what else is to save the daughters of these 30,000 Mormons and others from the fate awaiting them? We contributed largely to the church at Ogden and have sent Miss Olmstead to take the school there, also forwarding an organ to her. Our auxiliary in Buffalo Presbytery has built a church at Manti and supported the school. Two more stations have been asked for, and we hope by fall to send teachers to both. This is the present limit of our work in Utah. I must touch upon the work in Alaska, so grandly represented by Dr. Jackson. By a singular coincidence the first missionary at Fort Wrangell, Mrs. A. R. McFarland, was our first missionary in New Mexico, to which she accompanied her husband, and now in her widowhood she labors for us among the women and girls of Alaska. A grand, good woman she is, and the Lord is blessing her as she labors to save and train these for Christ. Our ladies in Kentucky have done a great work among the mountains in the southeastern portion of Kentucky, chiefly among the mines inaccessible to railroads, there were no schools or churches, and truly might it have been said that, "no man cared for those souls;" but the Christian women did, and a young preacher from Princeton went up to tell them of the blessed Savior, and going from place to place on horseback, Mr. Warren visited and preached and established Sunday Schools, and now there are four organized congregations entirely cared for by the Ladies' Societies. Another work was also given to us. We had not expected to do any work at the south, but the ladies offered to go to Concord, as Bible Readers among the freedmen, if they could go under commission from our Board. And as the funds were at once furnished, we sent them with prayer and hope. The Lord directed the effort. A man had been praying for years, that a teacher might be sent to the "poor whites," and was holding a piece of ground of ... acres, with a fine well of water to ... us, if we would only put up a school building and give them a Christian teacher. During the winter the work was carried on in a little log ... boys and girls of 19 ... Christianity and the ...

White Hall Seminary, [illegible] generous donor, who out of an income of $5,000, in a family of five, has made this generous gift to our Board, the Home Board becoming our trustees to hold the property for us.

We ask "Our whole great land for Christ." Are we not the King's servants, to whom he gave one, five and ten talents, as He went into a far country, and shall we not be called to render an account of our stewardship?

REPORT FROM THE BROOKLYN SOCIETY.

Since the organization of the society in 1872, we have contributed to the cause of Home Missions the sum of $4 514 00, and boxes of clothing and comforts for missionaries' families to the amount of $8,000. The society is supporting a school in Mt. Pleasant, Utah, which is in a thriving condition, and is making its influence felt over the minds of the children, and through them holds sway over the parents. We concur in the wisdom and good judgment of the Home Board, in assigning to the woman's societies the care and support of the schools. It is planting the seed in the most promising soil, and our faith points us to a rich and certain fruitage. Our hope is in the children: the truth will make them free.

We have contributed to the purchase of a school building in Brigham City, and support a scholarship in the school at Ogden. We are hoping to extend our work every year, and have a share in the honor and blessedness of making this a land of righteousness and peace.

Since our last report, we have changed our connection from the Presbytery of Brooklyn to the Synod of Long Island. Seventeen of the churches of Brooklyn are represented by managers of the Society. We have auxiliaries at Islip, Sag Harbor, East Hampton, Bridge Hampton and Quoque, and a co-ordinate society at Montrose, Penn. These pay their collections into our Treasury. We have been laboring in the past year to extend our work among all the churches in the Synod, hoping by such co-operation to give a wider range to our efforts and secure richer results. May God strengthen our hands and encourage our hearts in this most blessed service.

MRS. WM. BROOKS.

THE BOARD OF THE SOUTHWEST.

Mrs. Cundall read the following report from this Board:

The greater part of the ground occupied by the Woman's Board of the Southwest is far behind that which existed in this State a quarter of a century ago. That is the old stamping ground of slavery, and the incubus of the old civilization (with its injustice, and narrowness, and prejudice) still rests upon the land. In the State of Missouri, one third of the Presbyterian Churches retain their southern affiliations, and the proportion increases as we go southward.

The Southwestern Board was organized three years ago, both as home and foreign, with its centre at St. Louis; with the hope that the southern churches might be drawn as far northward as that of the national centre of their trade and commerce for the Mississippi Valley. The Board is yet in its infancy, but though in the midst of obstacles, discouragements and difficulties, it has gained a firm footing in its position. It is having a healthy growth, hardy and vigorous. Its receipts have more than doubled during the past year. This may be an index, but I apprehend that it is but a small part of the work accomplished.

The southern element to which I have referred, as not yet in sympathy with any northern movement, must be reached gradually—and to aid in securing this result, we need the help of all the zeal and labor which the territory sought to be covered can give us.

We will be glad if the time shall soon come when all the ladies' societies connected with our southwestern churches shall be heartily with us. We rejoice in what is done through other agencies. Some of our churches are under temporary engagements with other Boards, and are now supporting missionaries, teachers, Bible readers, and Zenana workers abroad. We have encountered a prejudice existing against Woman's Boards, as such. We have found great apathy upon the subject of Missions, foreign or domestic. Missionary intelligence has been sadly wanting. By far the greater number of the churches are weak and dependent. They are scattered over a vast extent of territory, while we have not had the funds requisite to prosecute the work of organization as we have desired, and now intend. The year has been one of encouragement, of gradual and healthy development. The Home Mission aid has been distributed among the dependent southwestern churches, and in the support of Miss Dunber, Missionary at Fort Wrangell, Alaska. The foreign missionary support has been divided between the Creek Indian Mission, the Beirut Female Seminary, the Syrian Mission, Siam and Mexico. Although our Board is so weak, we are yet greatly encouraged.

The Rev. Sheldon Jackson, D. D., again addressed the ladies, urging them to hear Mrs. Ann Eliza Young, in the evening, and then speaking of work in the West and in Alaska. He especially illustrated the fact that the Indian tribes can be readily civilized and Christianized.

Mrs. Green, the President, exhibited a pair of embroidered shoes, such as worn by Chinese women, which Mrs. Williams presented to be sold for the Alaska Mission, and would sell them to the highest bidder.

Rev. C. A. Kingsbury read a little poem written by Mrs. J. W. Allen, of St. Louis, entitled, "Something for all to do."

Rev. Dr. Allen added a few words, descriptive of the Board of the Southwest, and the difficulties met by the ladies at first in the local prejudices against public efforts by woman. Yet the little plant had spread. While there was but one organization three years ago, now there are sixty in Missouri,

[illegible] and Texas. The [illegible] ly supporting workers in [illegible] is laying foundations [illegible] urches, so that when they [illegible] they shall bear a large [illegible] work.

As Dr. Kendall had been unable [illegible] tend the meeting until late in the [illegible] noon, he merely expressed his sympathy in all this work, and that the "$50,000" might certainly be secured in the coming year.

The popular evening meeting was addressed by Mrs. Ann Eliza Young.

Burnham, Dr. Kendall, Dr. Nilem & Dr. Jackson. Of the Women's Ex. Com, Mrs. Gum, Mrs. Agnis and Mrs. Bromell. The object of the conference was to come to some definite rules in aiding chapels and school-houses. There was some conversation as to the legal aspect of how property was to be held. The united Committees agreed with Dr. Jackson that the title should be vested in the Trustees. That the Board of Church erection should hold a mortgage on the whole to the amount contributed by the Ex. Com. as well as by them selves, or that, if ever the property should be turned to some other use, the money given

should be returned to the Board of Church erection and the Ex. Com. It was recommended that applications for help in building chapels, etc, should be endorsed by the Presbytery. It was the personal opinion of the members of the Board present that they would pay not over $600.00, or about half of what might be needed under that, in aid of chapels in Utah, New Mexico and Alaska. Having power to act in the cases of Parawan, and St. George, they agreed to make the first payment upon the buildings there, immediately. The Executive Com. agreed to pay whatever amount was needed over and above the $600.00.

The Ex. Com. adjourned to their own room at eleven o'clock. Present, Mrs. Green, Mrs. Haines, and Mrs. Brownell. Meeting opened by reading of scripture and prayer by Mrs. Green. Dr. Jackson was then called in. Dr. J. handed in a check for $200.00 special for church building at Albuquerque, New Mexico, from Brainerd church, Easton, Pa. List of Indian schools wanting aid.

Western Shoshones Indian Reservation

M. needs $100.00 to pay in part for Miss Smith who pays all her own ~~traveling~~ expenses, and for various needs in school. Miss E. B. Smith, Conejas, Col. is the address. She fills the place of Mrs. Paray who is out of health. At Albuquerque is to be the Albuquerque Indian boarding school removed from Pueblo, for 100 scholars. It promises to be the largest place in New Mexico. There is no Protestant place of worship there. The $200.00 sent in from Easton goes to this purpose. At Socorro there needs to be two schools, one for American children and one for Mexican.

At Conejos is a Miss Mc. Conway who has been under support of no one through the past year. Proposed to the Ex. Com. to undertake her support. With regard to Fort Wrangle the girl's school of 22 is $200.00 behind. Considered best that Mrs. Graham's society be interviewed by the Board as to their intentions regarding Fort Wrangle School, the Ex. Com willing to undertake it if necessity require. It would take $2000.00 to carry it on.
Regarding the matter of Ogden, resolved to write to Knowles that as present teacher is about to leave Ogden, the Ex. Com. will take charge of the field hereafter. Dr. Jackson proposed that for the coming year the Ex. Com. have a paid clerk to assist Mrs. Haines in her large correspondence increasing so rapidly on her hands. Mrs. Bedle came in about eleven. Dr. Kendall brought in a letter from Rev. Mr. McNeice and also inquired if the Com. could undertake the sending out of more teachers. Mrs. Haines suggested that one of the new members should assist Mrs. Boyd in the matter of objects, Mrs. Boyd's duties being very pressing. Mrs. Haines thought best for all these various branches of work that the ladies have specified work assigned them and invited to be present at next meeting. Moved and seconded that Mrs. Meigs should be appointed one of the secretaries and shall choose the work she prefers. Mrs. Meigs willing to accept the

Sunday - School and Juvenile work for the Com. Mrs. Haines moved and it was seconded that Mrs. Gillett be assigned the position of Vice-President and to fill a secretary's place as well. Mrs. Parmley made a few statements regarding the state of affairs in Texas. She wished to report to Mrs. Little who is at the head of all the good work in that field and desired any information that would assist them in their co-operations.

Mrs. Haines read extracts from a letter from a Mrs. Martin who with her husband, has two counties as their field of labor in

Texas. They had lost a horse of much value to them and stated their needs with real pathos. Mrs. Parmley made interesting statements of the needs of many families in Texas who are refined and educated and yet without clothes decent enough to wear to church, and when help and support are much needed by the ministers. She proposed their synodical Com. staking up this home work which would hardly come under the workings of the Exec. Com. Mrs. Haines had heard again from Dr. Craighead asking for clothing to be sent to Howard University. Mrs. Green here read a letter from Rev. Dr. McNiece, to Dr. Kendall giving full ~~fra~~ account of affairs in his neighborhood and showing how much opposition they met with on all hands.

But they were rejoicing just at present in the work of Messrs. Moody and Sankey. The Mormons are attending the meetings by hundreds, and the priests are greatly alarmed and keeping close watch over their people. The matter in this letter regarding a building rented from Mr. Parks it is decided to refer to Dr. Kendall.

Concluded also to refer the matter of Miss Best and Park College to Dr. Kendall.

Moved and seconded that Miss Verbeck be sent to one of the Indian Missions and the matter referred to a Com. of two to meet with Dr. Kendall. Letter read by Mrs. Haines

Dr. Jackson recommends that Miss Tilly Wray be sent to Genez N.M. This matter to be referred also to Dr. Kendall. Letter read by Mrs. Hanies from Mr. Cort. Parawan. He expressed his need of about $100.00 and they are still about $500.00 in debt. Moved and seconded that $75.00 be sent at once to Mr. W. C. Cort.

A letter regarding Franklin, Idaho, was received. Moved and seconded that the Com-

do what it can about the building needed at Franklin. and that it shall consult with the Board of Ch. Erection. Dr. Tindall was here introduced with regard to Miss Burt and Park College. Miss Noble's standing examination to be discussed at the next meeting. Miss Best came in at half past one o'clock and Miss. Davies sent a letter recommending her and her came to the Woman's Exp. Com. Mrs. Green then told Miss Burt that the conclusion of the Com. after much deliberation was to let her funds come in to this Com. and that any statement of the result of her work, should meet him personally as the instrument in this cause.

the Com. do not think best to do anything for
the Indian school at Tallahassee. Mrs. Harris

a list of all the schools supported by Ex. Com.
and the persons employed in each one, that
24,500. or will be needed for the coming year
to cover the expenses of all three. Motion made
that a leaflet be prepared giving this list to
and distributed at meeting of Genl Assembly
Mrs. Harris spoke of Rev. Joyner's plans and
that he should receive every encouragement in
carrying out his plans for a larger building.
Letter read from Mr. McNeese on this
subject giving many strong arguments for this
being done. Miss Katy Smith's certificate

have not yet arrived, but Mrs. Hanies is in correspondence with Miss Rea concerning her. Mrs. Green proposed that Mrs. Hanies and Mrs. Boyd be appointed a com. with power to decide this matter. Mrs. Hanies has written Dr. Jackson to see what can be done regarding Prof. Coyner's expenses East. Letter read from Mrs. Huntington, Cleveland, saying she is quite willing to speak at the meetings in Buffalo, provided she can speak at meetings of both societies. Mrs. Hanies wrote to Mrs. Huntington that the great idea was to present the work in Utah before the meetings in Buffalo and that if there was time there was of course no objection to speaking before both societies. Letter read from Mrs Lewis of Phelps saying she was quite willing to have a little story she had written published as a leaflet. Mrs. Boyd suggested that a Mrs. Alling of Rochester might perhaps be persuaded to take Mrs. Lewis' place at the meeting of Assembly. Correspondence with her will therefore be held. Letter read from Mr. Sinclair expressing perfect satisfaction with the distribution of his $1000.00, also his willingness to prepare an article for Pres. Home Journal.

Rev. A. B. Cort of Canton wants money.
Motion made and seconded that Mrs. Haines & Mr. Salm regarding sending money to Mr. Cort as well as to Miss Bartlett.
Motion made and seconded that Mrs. Boyd prepare a statement of moneys appropriated to read at the next meeting. Mrs. Haines reported that money has already been sent to Miss Bartlett and that a Rev'd Mr. Clark from Florida had ~~franked~~ for 50.00 being raised every year by their Sunday School for Miss Bartlett.
Letter read from Mrs Wright, Poughkeepsie, regarding Miss Stirling, and also that they would be glad to have Prof. Joyner speak to them during his visit East. Letter read from Mrs. Agnew of Pa. paying a high tribute to Miss Stuart of Baltimore who wants to go as Evangelist-teacher among the Indians. Letter read from Mr. E. H. Perkins of Baltimore, wanting three or four objects to work for in the Hong Field, ranging from $50. to $200. a year. No further business coming up meeting was adjourned.

concerning Miss Smith. She considers her qualifications too much below par to undertake any such work. A telegram was rec'd from Col. Tiffany, Arizona, saying he was ready for a Deaconess and a matron to be sent at once. Miss Stuart has been highly recommended for the position. Mrs. Chandler's name also comes up on the situation. An interesting letter from her read. Moved and seconded that Miss Stuart be recommended to Col. Tiffany. Moved and seconded that Mrs. Chandler be appointed conditionally.

Olds stating the great need of a teacher at El Paso, Texas, where an interesting field is open. Decided to refer this matter to Dr. Kendall. Resolved to have 1000 extra copies made of the Pres. Home Missions for distribution. The Presbytery of Utah ask for

new teachers and it is suggested that Mr. McMillan who is coming on shall see as many personally as possible. Letter read from Mr. Geo. W. Martin saying 75.00 were still needed, and told how he had secured a Mason and Hamlin organ and after payments towards it had been made in various ways 20.00 still remained due on it which he begged might be sent them. The hall at Ephraim had a bill resting on it of $17.50 which he had paid and would have to carry unless this Com. could undertake it for him. Decided to refer this letter with these items to Dr. Kendall and Mr. McMillan for advice. Mr. Shields wrote that buildings at Corralles were much needed if they were to support a teacher. They were very glad to welcome Miss Harris, and in a hurry for Miss Shurtleff. Mr. Cort wrote that he had almost recovered from his wound. They were waiting for the organ which they hoped soon to receive. Moved and seconded that Mrs. Boyd investigate the payment to Franklin by the Board. April 19th 1881 Woman's Executive Com. met in their room 23 Centre st. Tuesday April 19th at 10 A.M. Present Mrs. Green, Mrs. Haines, Mrs. Langdon, Mrs. Boyd, Mrs. Brownell and Mrs. Coyner now visiting East. Meeting opened by reading of Scripture and prayer by Mrs. Green

Dr. Jackson waiting to meet the ladies the reading of minutes of last meeting was delayed

Dr. Jackson suggested a double copy being made of the June number of Pres. Home Missions so much matter coming up at that time.

He agreed to pay whatever the cost might be over $50.00, the outside limit. About Sitting Bear's school among the Poncas $10.000 have been voted by Congress for buildings and $5000 for the school. Miss Shields of Albuquerque having gone out for the Gov.m't 2 years ago, paid her own expenses; and now wishing to come East on a visit, begged her expenses might be paid by the ladies; also wished her salary

Albuquerque
Miss Shields

might be increased to $600.00. The question was raised as to vacation in the school at Metlakatla and if so, for how long. The Department at Washington fixes the 12 mos session. The decision of this question will decide the time of Miss Shields' vacation. Dr. Jackson's opinion being in favor of the extended session, the teachers then selecting each other for a vacation. As to the buildings in Alaska, missionaries going out there now have no shelter or comfort. Dr. Jackson thinks it of first importance that a building be put up immediately at Chilcat and at Hydahs at the cost of $2000.00 each, school rooms and lodging rooms combined in one building. He proposes borrowing the 4000.00 with the expectation of its being raised by the Fall, and going up there to start the work and ensure its success. In the meantime the missionaries are to live in tents, their only resource. Mrs. Dickinson at Chilcat has a school of 64 members, at present, only 3 scholars and $10.00 a month salary. Dr. Jackson suggested that 20.00 be given her in place of 10.00.

Mrs. Hayden then brought up the matter of Miss Stewart and Mrs. Chandler's teaching expenses, and Mrs. Boyd was requested to confer with Mrs. Eaton to see that money was advanced them as they need not be

delayed in starting. Dr. Jackson said that the law enforcing education in Sitka caused the schools to overflowing, 200 being in one school. The average attendance at school is 300. It is all under military discipline and this keeps them in compact and good order. At Fort Wrangle there is good work being done. At Hydahs they are very anxious for a teacher. At Sitgas, the supreme point of Alaska, they became tired waiting for a teacher and went into British America to get out of the intemperance and idleness of the surrounding population. Dr. J. thought $75.00 for scholarships in the boy's boarding-school would cover expenses, and that reports of each child should be regularly required to keep up interest. Among the Hydahs the missionary ought to receive $1000.00 and the teacher $600.00. Two lady-teachers will be required both in Hydahs and Chilcat, and another teacher in Sitka, this latter position to be filled by Mrs. Austin if she wishes, the salary for herself and husband being $1200.00. Dr. Jackson read a letter from Mr. Dyer, Indian agent in the Quaw paw agency, stating needs of schools which government cannot supply. The Quaw paw school is under superintendent Whiting and is very successful. The salaries are paid by the Government. Dr. J. spoke in behalf of the Osage Reservation in Indian

Territory. He thought we might look forward to having the school among the Poncas the following summer, 250.00 being probably sufficient beside the Government allowance.

At Pima Arizona, the liabilities will not be large. At San Carlos 250.00 for the traveling expenses. Among the Mogui 600.00 to cover the salary and traveling expenses. At Fort Defiance 50.00. The traveling expenses to the Hydahs 150.00. The Pueblo school at Albuquerque has greatly in need of another man and wife. Chilcat and Hydahs are both in need of bells. They cost about 150.00 freight included. Saw-mill wanted at Hydahs, 2000.00 being needed for this. Dr. Jackson suggested that 600.00 be asked for each of the buildings in Alaska, from Church Erection Board.

Mrs. Boyd reported $1870.40 since last meeting.
$27.793.24 for the year.

Dr. Kendall came in and asked if the ladies to meet with School Committee, to hear Prof. Coyner and Mr. McMillan on their work in Utah. The meeting lasted about an hour. Mrs. Haines presented several bills due for traveling expenses etc. Mrs. Chandler's traveling expenses of 75.00 were sent. Miss Laura B. Shields wrote for some extra furnishing for her rooms.

These bills it was decided to leave to Mr. and Mrs. Boyd to approve and settle.

Miss Austin wishes the 8.00 received from sale of articles from Sitka to be expended in gingham and sent to her. Moved and seconded that the 55.00 held for Miss Noble be refunded to her. Moved and seconded that the appropriation for the school at Zuni be referred to Dr. Jackson and Mr. & Mrs. Boyd. Motion made and seconded that if Mr. McMillan approve, Miss Crowell be notified to start at once for Gunison where they are ready for a teacher. Mrs. Haines read letter from Mr. Martin from Manti, about the rent and the organ which he purchased for Ephraim, 20.00 more being wanted on this purchase. They need a good musician at Manti as well as a good primary teacher.

The church is being pushed along, the Board having sent the funds. Letter read from Rev. A. H. Gillette, Grand Rapids, regarding the meeting in Indiana. Wants a representation from this Com. A letter from Miss Austin reporting over 200 pupils in her school. They sing very well. Much in need of 58.00 for school furnishing. Prof. Coyner came in and said he would be pleased to have all the subscriptions made to Salt Lake Institute or the work connected with it, be reported through the Exec. Com. Concluded to refer the matter to Dr. Kendall, with Mr. & Mrs. Boyd. An application from Miss Smith for a building at Corralles has been endorsed by Dr. Jack

Moved and seconded that the appropriation for Mrs. Austin from the Board of $40.00 be expended back to the Board again. The money due at Spring City will be taken up at next quarterly meeting. A letter from Mr. A. B. Lord acknowledging $135.00 just received from Treas. Com. Washington needs $200.00 at once, to pay for building and meet current expenses. An interesting letter from Miss Wheeler, Monroe. Letter read from Mr. Parker, Logan, sending plans of chapel. Card from Miss Harris, Nearly at her journey's end. Jones Moved and seconded that $5.00 be appropriated for extra notice in the Pres. Home Missions for June. The decision of the Com. on the vacation of school at Albuquerque, is that the school should continue through the summer. Moved and seconded that Miss Shield's matter be laid over till next meeting. Moved and seconded that Mrs. Dickinson's salary be increased henceforth $10.00. Moved and seconded that Mr. McMillan be appointed to make his own selection of teachers from the list now in our hands, after visiting them.

Meeting was adjourned.

Items decided by the Board.

Miss Noble at Franklin, Idaho, was voted $35.00

for furnishing School.

Mrs. Austin was voted $40.00 per month while teaching.

The building enterprise at American Fort, Utah, was commended and referred to the Women's Exec. Com. for funds.

Mrs. Chandler was commissioned for San Carlos agency at a salary of $75.00.

Resolution passed to pay Mr. Parks for his improvements at Logan.

Meeting of Ladies of Exec. Com with the School Com. to hear reports of Prof. Coyner and Mr. McMillan on work in Utah.

Prof. Coyner made the first remarks.

He had come East at the request of the Board in Salt Lake City to present the work of that Board. First, that the school work had met with success beyond their most sanguine expectations. The roll numbers this year 255.

The school accommodation is limited to 225 seats. All the rooms in boarding - school are filled, two in a room. They have now applicants for next year far beyond what they are able to meet. The Exec. Com. gives them.

$1500.00 for their work, but they hope to get free from the Board, and have their income come entirely from their boarding-pupils. The population of Salt Lake City is 200.000. They are anxious to have two more schools one in the extreme East and the other in the extreme West of the city. Their school is free to all who cannot pay. This one is located in the centre of the city. They think they may supply teachers for these extra schools from the Institute.

He wants a male teacher for the High School and an assistant. He thinks that these two schools would not draw off a pupil from the Institute. So this does not do away with their need of enlarging their building. The cost of equipping these schools and paying teachers might be $500.00 each, anything over that he expects to have volunteered by friends there. $2000.00 have been borrowed by himself and Mr. McNiess, as yet with no promise of payment. He proposes to put up an addition to the building in the rear of two stories to hold 20 or 25 rooms. The church to pay for the new house for Mr. McNiess. They think that $16.000 will cover all, the 2000.00 already used included. Dr. Kendall asked if it was not the opinion of the Board that this Institute should eventually become a college. The answer was in the affirmative. Mr. Hanies asked if the

Board would not be willing to have Mr. McMillan
an address meetings with Pres. Cooper through
the Spring. Mr. Booth said he thought this
case of the addition to the Institute with the
10.000 expence should have due consideration as
well as ascertaining if the expenditures could be
kept within this Magnie. Mr. McMillan was
asked to give his statement.
He mentioned, first the great need of a large
number of Webster's Dictionaries, Gazetteers, and
some Encyclopedias, in default of a Library.
He thought that in speaking of occupying a point
the fact that buildings are needed should always
be included: There are forty points where schools
are needed, but always certainly where they are
necessities. In the N. E. corner of Utah, Bear
Valley, they want at least three teachers.
Box Elder is a town of 2000 inhabitants, ex-
clusively Mormon, into which no one could enter.
Mr McMillan said that he had always come
to the election of important points where the
Schools were needed. At Ogden they need an
addition to their building, two teachers having
each to one room. He examined the ground
and finding it too small to allow another build-
ing, found a site on what they call the Bench,
where the Mormon element is undisturbed,
and suggests a Mission Chapel being erected
there, one of the teachers to be trained to that

Mr. McMillan wants not only two extra missions stations in Salt Lake City, but a third.

Dr. Kendall wanted to hear about Bryson. Mr. McM. stated it was a well-built town 65 miles South of Salt Lake City. They have rented a hall in one side of the town for four years. He wants one or two other sites in the Centre of the town, a church and parsonage to be put up at once $300.00 or 400.00 being sufficient perhaps to cover the lot, and $2,600.00 for the building. Another room is needed for the building at Springville, probable cost 600.00. Building also needed at Gunnison. Santa Clara is also an important point and Salina. One missionary could take charge of two or three points as they are so near together. Millville in Cash Valley they want as an outlying point from Logan the Centre; Smithfield the other. A building needed lowest estimate 2000.00. Fountain green, 14 miles from Nephi, where there is now a school and minister, needs a building also at the same cost of all the others. At Fair View 7 miles from Mt. Pleasant, Mr. McMillan has a congregation whenever he can preach there.

A teacher is now there and they want a preacher as well. East Bountiful has the same needs. At Spring City they have a building where Miss Young is, but it is not yet

paid for. Cost $680.00. Heber, 2000 population teacher and building both needed. At Marvin the lot has already been offered and 600.00 only is needed to put up a building.
The business now being over the Ladies were excused.

Extra meeting of April 23rd. 1881.

April 23rd 1881.

Meeting opened by reading of Scripture and prayer. A motion was made to send invitations to the Ladies' Board of Missions of New-York the Ladies Board of Brooklyn, and of the South-West to attend our Annual Meeting at Buffalo. Motion made to send Miss Crowell as soon as possible to Gunnison in case of Mr. Martin.
Moved that Miss Welsh's quarter salary and rent be paid by our Treasurer.
The Secretary's report was read and approved. A request from Mr. McMillan that a note for $680.00 for Spring City be paid, was granted. It was decided to order five hundred extra copies of the Pres. Home Missions for May and the same number for June. A pleasant letter from Mrs. Alling of Rochester was read in regard to the Buffalo meeting. A bill for stationary for Mrs. Brownell was ordered paid. If not already provided for, it is ordered that the

Albuquerque

wages of the two assistants needed at Albuquerque be paid. In the matter of a school at El Paso, Texas, if the Society can be able to get Mexican children, the school can come under the support of Exec. Com. A letter from Mrs. Hope asking to help support a Missionary in the Broad field, was agreed to. A vote of thanks was given to the S. S. Union for a donation of forks. The meeting then adjourned till May 3rd.

Mrs. Green Sec. pro tem.

Tuesday May 3rd 1881

Women's Exec. Com. met in Tract Room at 10, A. M. Present Mrs. Green, Mrs. Haines Mrs. Langdon, Miss Marshall and Mrs. Bromley. Meeting opened by reading of Scripture and prayer. Minutes of last meeting read and approved. Decisions of extra meeting of April 23rd approved by those not present. Report of receipts not read as Treasurer was absent. Mrs. Blake came in about eleven. Moved and seconded that the afternoon Union meeting of the day of our annual Meeting shall be held under the direction of the particular Board or Society where auxiliaries prepare when the Gen'l Assembly convenes. A letter from Mrs. Townsend of Albany to Dr. Jackson on the subject of El Paso, saying their Society stands willing to aid in furnishing a school

at that place could a teacher be supplied. The fact that the children are mostly Mexicans puts it in our power to send a teacher if so approved by the Board, the erection of a church to be considered afterwards. It is considered best that as the May No. of Pres. H. Missions is a double number, the June number had better not be enlarged. Mr. Dinsmore of Highland University, Highland, Kansas, came in for a few moments to state the claims of that College. Mrs. Greene replied to Mr. Dinsmore that we are unable to appropriate funds directly to that purpose, but would be willing to receive any contributions, passing them thro' our Committee to the College. Also that we might be able to supply furnishings, beddings etc, from various sources. Money has been sent to Miss Crowell and directions for her journey. Mrs. Bell of Kansas City has advanced money to Miss Stuart and Mrs. Chandler 100.00 in all, and she saw them started on their journey. The money is to be refunded to her at once. She reports a terrible flood in that place, 7000 people having been made homeless. Mrs. Bailey was very much pleased with Miss Stuart. Letters read from Mrs. McFarland stating that still a debt remains on the building of 2000.00 for which Mr. Young has been responsible. She wants 25 mattresses as well as

grey blankets and some other necessaries
100.00 also needed for two new windows
and a tank in the upper story. Resolved
to place this matter of the needs at Fort
Wrangle as well as the building at Hydaks
before Dr. Kendall. Letter read from Miss
Shields, telling of her various experiences in
visiting the different schools but of her over-
fatigue at present in assisting Miss Philips
in household cares ~~in~~ which she hopes to
lay aside soon by receiving assistance.
A letter followed by Miss Philips giving
further painful details of what she has
been forced to do to care for 46 pupils and
so few to accomplish what would easily be
fill the time of several more. Greatly disappoint-
ed at not being allowed to have Mrs. Du-
rand who was standing ready to come, but
was forbidden by the Board. Mrs. Harris
reported that a Miss Auld had been ap-
pointed to go on, but wished Mr. Boyd
to come in to settle the matter positively. Mr.
Boyd reported that Miss Auld had been ac-
cepted by the School Com. on recommendation
of Prof. Shearer. It seems Miss Auld is a
teacher and will not relieve the necessity.
Dr. Kendall was then called in to see
what he could advise. He felt powerless to
do anything, but approved of the ladies

laying the matter before the School Committee to try to over-rule their decision. The matter of the building at Hydaks was then brought before him. Also the 2000.00 due at Fort Wrangle. Dr. Kendall cannot understand how Mrs. McFarland can be in debt. Dr. Kendall also explained Prof. Coyner's need of $16.000.00 instead of the 10.000.00 he first mentioned. The extra 6000 to buy a lot with a building on it adjoining the school buildings and which could be used as a ~~school~~ boy's dormitory $3000 only being needed at present to be paid down, we feel prepared to advance this sum, provided Prof. Coyner thinks best. Mr. McMillan came in to state the special needs of first necessity.

The establishment of an extra school on the Beach was discussed and Mr. McMillan is strongly in favor of this. The building at Franklin for which 300.00 was needed, the Board of church section only granted $150.00, leaving the rest for us. An additional room at Paraswan 150.00

Lot and building at Ogden 2000.00

To buy house already built and furnished at Washington 275.00

To build at Payson & Smith 3000.00

field $5425.00

A. B. Cot advanced for instruments 140.00
Rent at Hastings for current year 110.00
Incidentals at Mi. Fork. 100.00
350.00
5425.00
Balance in Franklin 5775.00
1150.00
$5925.00

Moved and seconded that these estimates from Mr. McMillan as well as those from Dr. Jackson be brought before the Com for their consideration. Meeting was adjourned.

Report of Women's Meetings at Gen'l Assembly
Buffalo, May 27th 1881.

# WOMAN'S HOME MISSIONS.

[illegible] of the Woman's Executive Committee [illegible] Presbyterian Church, in the Morning—[illegible] Meeting of Several Boards in the After-[illegible]

FRIDAY, MAY 27, 1881.

In the public meeting of the Executive [illegible]committee, and the union meeting of [illegible]eral Woman's Boards in the afternoon, [illegible] attendance was essentially the same, in [illegible]umbers and persons, as the day before, [illegible]bout four hundred ladies being present. As on Thursday, the Church was beauti[illegible]fully decorated with living plants, and at [illegible]noon lunch was provided in the lecture-[illegible]room. The arrangements for the comfort of all were complete.

MEETING OF THE EXECUTIVE COMMITTEE.

The opening devotional services were conducted by Mrs. Ashbel Green, of Tenafly, N. J., the President of the Executive Committee. She read from the last [illegible] of the Gospel by John, and spoke [illegible] the impression made by Dr. Pierson's [illegible]address Thursdry evening, that there is [illegible]danger of too much organization. Other [illegible] took part in the service.

At 10 o'clock Mrs. Ashbel Green took the chair, and Mrs. G. C. Yeisley, of Hud[illegible]n, N. Y., was chosen temporary Secretary in the absence of Mrs. S. B. Brownell. The ladies first listened to

MRS. GREEN'S OPENING ADDRESS.

"And when they were come, and had gathered the Church together, they rehearsed all that God had done with them, and how he had opened the door of faith unto the Gentiles."

Two years ago at this time we came before you to present our first annual report. We were encouraged because in the few years of our existence three thousand dollars had been received by our Treasurer. Now, as you will hear from the report, twenty-seven thousand seven hundred and ninety-three dollars ($27,793) has been received during the past year, besides seventeen thousand dollars in valuation of boxes. Twenty-seven Synods have appointed Synodical Committees, and from every Synod in the Assembly has some offering been cast into our treasury. Thus throughout the land we have a band of earnest, willing workers.

We gladly welcome to this meeting so many of our Christian women, and among them the familiar faces of friends who were with us at Saratoga. We were encouraged then by their presence and sympathies, and since then by their co-operation.

The calls that come to us from the far West for teachers we do not wish to turn away unheard. The Indians are begging to be taught. Captain Pratt writes: "Numerous tribes from many parts of the Indian [illegible] dians, show that there is an awakening among the Indians in favor of education and industrial training for the young." In the report of the Indian Commission we read: "To expect them to attain civilization without these advantages is to look for impossibilities; to deny them these opportunities is to perpetuate their present helpless, semi-barbarious condition." In many of the schools already established we have the privilege of selecting the teachers, and we send earnest, devoted Christian women.

Among the Mormons the influence exerted by our teachers, as well as the instruction given to the young, is such that many of them decline to take part in religious festivals; they stand aloof. The Mormon Church is becoming alarmed, and by raising the standard of its own schools hopes to win back those who are now under this Christian influence. But the seed has been sown, and in many hearts has taken deep root. The word of God will have free course and be glorified, and those who are brought up in superstition can be led out into the marvelous light of the gospel. The children of these exceptional populations have been committed to the women of the Church, and upon us rests the responsibility. "A great door and effectual has been opened." Shall we enter in? Fifteen teachers are needed for Utah alone; one hundred could be easily employed. Thirteen buildings should be erected to be used as school houses and chapels. These buildings average in cost $2,000. What is done should be done quickly. If we do not occupy the ground it will be occupied perhaps by those whose teachings will do little to enlighten or civilize. Hundreds of Mormons are arriving in this country every month. A Christian education will make them better citizens than the bayonet.

At Sitka, Alaska, we expect to establish an Indian boarding school for boys. We have great encouragement in this mission. Our teacher, Miss Austin, who has been there but fourteen months, has so many pupils that she was obliged to ask for help in instructing them. Seventy-five dollars will secure a scholarship in this school. A building for school purposes and a teacher are needed among the Chilcat Indians, just north of Sitka. These Indians from the extreme northwest of our land are so anxious to be taught that a whole village has gone over to the missions in the British Possessions because we have not had the means to send them a teacher. The land is ours, and we should not let them remain in ignorance.

Much more time than I can take would be necessary to give even an outline of the work for the coming year. In the report of the Committee on Home Missions in the Assembly we heard that it was "scarcely possible to overestimate the importance of the education of the children of these exceptional populations," and that "the Assembly cannot but assist in every way all efforts made in this direction." The church is calling for men to go out to the West to preach. We ask that earnest, gifted women give themselves to the work of teaching the young.

We need thirty thousand dollars [illegible] more for what is opening up before us. Is there not in this large assembly of women some who are ready to fulfill the command of the Savior, "Feed my lambs?" "Ye are my friends if ye do whatsoever I command you."

The Corresponding Secretary, MRS. F. E. H. HAINES, said that the report which she would read was the same that she made to the Home Mission Board:

REPORT TO THE BOARD OF HOME MISSIONS FOR YEAR ENDING MARCH 31, 1881.

GENTLEMEN—It is impossible to give in a brief report any right idea of the work which comes to us from the hands of the Master, in every increasing volume.

Yet, while endeavoring to take it up, we are distinctly admonished that our help, indeed, is in God alone. Two of the largest contributors to our treasury, friends, to our view, most difficult to spare, Mrs. James Stokes, of New York City, and Thomas M. Sinclair, of Iowa, have been called to higher service above. But our God remains. He who has raised up helpers in this mission work in the past, will still care for it in the very best way, in the future.

The Lord has indeed blessed us more and more during the past year. Twenty-seven of the Synods have now appointed committees of women to superintend, each within its own bounds, the work for home missions of the women of our churches. The women, in one or two of our Synods additional, are taking steps in advance of such action, hoped for next October.

There are now 278 members of Synodical Committees. Two members of each Synodical Committee, together with the necessary local officers, constitute the Woman's Executive Committee of Home Missions, whose report is now respectfully presented to the Board of Home Missions. Thus, having vice-presidents also, scattered through eleven states, or sixteen Synods, the women of our church are bound together in this cause, not alone by loving co-operation with each other in work for Christ, but are greatly strengthened in this Home Mission work, by their direct appointment to it by the Synods of our church.

The Woman's Board of Missions of the Southwest connected its Home Department with the Woman's Executive Committee, by its own vote, which has been ratified by the subsequent action last fall, of the Synods of Missouri and Kansas. The work of that Board has not been disturbed. Experience has proved the advantage of such unity of effort, all cause of friction being thus removed.

The Lord is blessing us also by the larger amount of money given toward the establishment and support of the mission schools. Contributions have been received from every synod:

| | |
|---|---|
| Cash | $27,793 94 |
| Value of boxes of clothing | 16,957 42 |
| Total | $44,750 36 |

We are blessed also in the increased number of subscriptions to the "organ" of our work, "Presbyterian Home Missions."

Sheldon Jackson, D. D., a copy of it is sent to every minister whose name appears on the minutes of the General Assembly, to the members of synodical committees and to the teachers in our mission schools. Special attention has been given during this past year to a systematic distribution of information as to the work of home missions. May not the increased receipts of the Board of Home Missions be due in part to this effort?

More than 15,000 mite boxes have been sent from our office and have proved of excellent service, especially in scattered neighborhoods; and "gathering up" everywhere for this great cause "the fragments that remain."

We earnestly recommend that more public meetings in the interests of home missions be held in our Synods, to be addressed by Synodical and home missionaries, and others. The good effect of such meetings, where secured, has been manifest.

We are blessed, also, in the success of the mission work under our care.

The statement subjoined, necessarily succinct, shows the position and number of these schools, now established among Indians, Mexicans, and Mormons:

INDIANS.

*Alaska*—Fort Wrangel, one teacher and part of building; four scholarships. Sitka, three teachers—boys' boarding school—five scholarships. Chilcat, one teacher; building needed.

*Arizona*—San Carlos, two teachers; Moqui, one teacher; Navajoes, two teachers.

*New Mexico*—Zuni, one teacher; Jmeez, one teacher; Hot Springs, one teacher (under appointment); Albuquerque (Pueblo boarding school), three teachers, two assistants.

AMONG THE MORMONS.

*Idaho*—Malad City, one teacher; Franklin, one teacher.

*Utah*—Logan and Smithfield, three teachers; Ogden, one teacher; Salt Lake City, three teachers; American Fork and Pleasant Grove, three teachers; Springville and Payson, three teachers; Mt. Pleasant, Marion and Spring City, three teachers; Manti, Ephraim and Gunnison, two—three most of year; Parowan, two teachers; St. George and Washington, two teachers; Nephi, Fillmore and Monroe, three teachers.

AMONG THE MEXICANS.

*South Colorado*—Conejos, two teachers; three a part of year.

*New Mexico*—Ocasl, one teacher; Coralis, two teachers.

There are, as seen above, in Alaska, five teachers; in Arizona, five; in New Mexico, eleven; in Idaho, two; in Utah, twenty-seven; in South Colorado, two; total, 52.

The Lord again owns and blesses this Home Mission work by opening to us new places, and opportunities for its enlargement as far as money may be promised for the purpose.

In order to keep up another year the work commenced, and to render it more effective, we need $30,000.

In order to undertake the new chapels, and schools proposed, we could use $30,000 more,—making $60,000 in all.

TREASURER'S REPORT.

NEW YORK, May 20, 1881. S. B. BROWNELL.

The reports were accepted and adopted.

Mrs. Green read a poem composed by Mrs. V. A. Lewis, entitled, "The Fligh of the Gospel Angel," which had been distributed through the church in printed form.

As the delegates expected from the Methodist Episcopal Church and Baptist Home Missionary Society were not present,

MRS. E. H. HUNTINGTON, of Cleveland, described, substantially as follows,

A VISIT TO UTAH SCHOOLS:

The reason why she had been asked to speak was that she had recently visited a missionary friend from Cleveland who was working in Utah. She was invited out there to witness the dedication of a chapel in which she was interested, and went at her own charges to study the school system of our Church. Tourists see no more than Salt Lake City, with its magnificent temple. It is impossible to really appreciate the influence of the Mormon Church until you visit the settlements, valleys and villages. [illegible]

The trials are as great as on any foreign field, but the very persons whom you would think too delicate to endure them are the ones most influential.

Some people think that Mormonism and polygamy are synonimous terms. It is not so. What impressed me so much was not that they have the practice of polygamy, for that will die of its own loathsomeness, but the fact that the Mormon religion is spreading everywhere and rapidly. They send more missionaries into the Southern States than we do. I attended their enthusiastic missionary meetings when they sent some out, and listened to some who had returned from the States and England. They have 7,000 converts in the Sandwich Islands. Mrs. Huntington appealed for two young ladies in our schools (who have been rescued from Mormonism) that they might be brought East and thoroughly educated for Christian work in Utah.

The President introduced a sprightly young lady teacher from among the Pueblos at Albuquerque, New Mexico,

MISS LORA B. SHIELDS,

of Pittsburgh, who spoke as follows:

I was not a little shocked yesterday to find my name on the programme for a "short address." You will all admit that life in an Indian village where one speaks only a foreign tongue, is not so good a school for public speaking as is such a meeting as this. One day I hope to "address" you; this morning I would only "talk."

The Pueblo Indians of New Mexico and the Aztec Indians of Mexico are one and the same people, separated only by a treaty line. I shall not attempt to give you their history; I would refer you to the excellent and authentic paper read by Mrs. Ellinwood before the General A[illegible]

The past two years of my life [illegible] spent among this people. My [illegible] during the first year convinced [illegible] only in a boarding school [illegible] for the best results. In the [illegible] much time is taken up with [illegible] feasting, that but little is [illegible] The little girls care for the [illegible] mother grinds wheat, and if [illegible] the girls in school we [illegible] baby too. The attend[illegible] results slow in co[illegible]

[illegible] given to us as sons and daughters, and we are asked to be as a mother to them. One of the most significant facts in regard to the school-room work is, that while we have perfect order within its walls, never yet has there been a case of discipline. But the highest, the grandest aim of our institution is, not only to fit them for life's duties, but to create a home life for these children, such a life as shall lead them by the narrow way home to God. Think for a moment what this is. Do you realize how great the responsibility? How many young ladies in this audience would feel it absurd to play "pussy wants a corner," to jump rope, and play ball, or roll a hoop with "Indians?" Yet such hours are among our happiest! Let me give you my first experience in receiving pupils.

A pretty Indian woman from Isleta—really pretty—came to our school bringing her son eleven years old. She said: "I bring you my boy. I give him to you. I am a poor Indian woman. You can do better for him than I. Take him and be as a mother to him!" Do you wonder I plead for these people? Have we succeeded in winning the hearts of our pupils? Let me instance for you. A few weeks ago one of my former pupils from Jones had leave of absence for nine days. Before the time expired she came back, declaring that she could not stand her mother's cooking! These girls are taught to bake, to cook, to do general housework. They need some one to be constantly with them, to train, to direct them—a far more difficult task than to do the work one's self.

The President read extracts from several letters concerning Utah, written by Mrs. V. A. Lewis, of Napa, Cal. (recently of Phelps, N. Y.)

Rev. Geo. W. Leonard, of Springville, Utah, added a few facts to the testimony from that field. There are more than 620,000 children, or young people under age—the element we are laboring to effect. You should know that polygamy is not promoted and extended by the most earnest desire of men, *but of women!* They believe that their salvation depends upon being married, and, further, that the more wives their husbands have the more princely will be their station, and with them the proportionate exaltation of their wives. But upon this altar the mothers and wives lay bleeding and broken hearts, in order to future glory. You may know of Brigham Young's doctrine that Adam was a god—that all good Mormons are gods; but possibly you are not aware that they think of the Infinite God as a body, with parts and passions like ours! And they dare to claim that Jesus Christ was a polygamist in practice! And I have heard it said that Joseph Smith is the Messiah for these latter days.

Mormons claim to reverence the Scriptures in part; but they give place to the Mormon doctrines and covenants, when there is any conflict.

Mrs. Holt, of Kansas, was introduced as a representative of the Ladies' Board of the Southwest, who spoke of her own attempts and success in instructing children in the work of missions.

Prof. J. M. Coyner, of Salt Lake City, spoke of his work there as dearer than all else; for he had buried all ambition in 1876 in the grave of one sacrificed to missionary work. He gave some accouut of the beginning and growth of a school there, in which work Rev. D. J. McMillan was associated. Another school is in progress and a building contracted for. This will need furnishing, and help was asked of the ladies. Some spiritual aspects of the work were spoken of.

Barrels of bedding, etc., which the ladies may contribute, may be sent *free of freight beyond Chicago.* Thirty dollars is the price of a scholarship in the School. There is no debt so far. The speaker closed with his "views" on the composition of the Mormon dose. If you will analyze Mormonism you will find it to be made up of twenty parts. Take eight parts diabolism, three parts animalism from the Mohammedan system, one part bigotry from the old Judaism, four parts cunning and treachery from Jesuitism, two parts thugism from India and two parts Arnoldism, and then shake the mixture over the fires of animal passion and throw in the forms and ceremonies of the Christian religion, and you will have this delightful system in its true component elements. Can Columbia stand the dose? She will have to within the next fifty years, if the evil is not promptly rooted out of our political system.

Mrs. Green spoke further in the interest of the thirty-dollar-scholarships, inviting attention to them. The ladies then listened to the

Rev. H. B. Gage, of Pueblo, Col., who appeared especially to represent the work done by the Board of the Southwest. He asked them to pardon him if he should appear embarrassed, as he had been accustomed to speak to audiences composed almost entirely of men. He mentioned Santa Fe (older by twenty years than Philadelphia), where the population has scarcely varied in numbers during those long generations; nor in their bondage under the superstitions of Romanism in their worst form. The work of rescuing the children was pressed upon the missionaries. Any ordinary College man can learn to make himself intelligible in their language in three months. The work is very encouraging, and large results are rapidly attained. In one district, where a sermon had never before been preached, forty-four converts were baptized within twelve months. In the Roman Catholic schools—poor enough at best—Protestant children were obliged to submit to all the Romish ritual. We need many teachers along with the preachers. The old superstitions are gradually yielding to modern thought and civilization.

Mrs. McMillan, the mother of Rev. D. J. McMillan, was invited to say a few words. She said that she was not educated to speak in public; yet as she had spent three years with her son in Utah, and had seen what is needed, she would make an appeal to the mothers of this great land for this poor, oppressed, downtrodden people. They are more degraded, in some senses, than the Chinese. If women advocate polygamy, as one speaker had said, it is either unwillingly or through fanaticism; but there are thousands who are groaning under this evil. Think of this, you *young* ladies! I say that the Christian female teacher is doing more than any one else for these women. Don't expect to go there and live as you do at home! There will be poor fare and accommodations. If you can't send out a teacher, you can bring a native girl east and educate her for mission work among her own people. We must see to this work, for it is right at our doors.

Dr. Henry Kendall added a few words, saying that one of the first things to interest women in Home Mission work was the achievement of Mrs. McFarland in Alaska. He sketched her career, when left there alone by Dr. Jackson; how she won the love and confidence of the natives, called a sort of a national convention of the tribes, wrote its constitution, and "run" it more absolutely than the most "stalwart" Republican or Democrat runs one in this country. Drs. Jackson and Kendall were received with great cordiality by their chiefs, when visiting Alaska; were elected to membership in their councils, and honored with titles. Dr. Kendall walks the earth proudly under the name of "Cinnamon Bear."

The Doctor then exhibited one of their hideous instruments for scaring away witches; remarking, "Mrs. Haines seems to have one here!" Other objects of interest were shown in the way of printed matter, maps, mite boxes, etc., in use by the ladies in their work.

Mrs. C. H. Langdon reported verbally for the

COMMITTEE ON RESOLUTIONS,

that they would repeat those offered the day before in the foreign missionary meeting.

Unanimously adopted by a rising vote.

Mrs. Childs invited the ladies to a collation at noon in the lecture-room; and stated when and where the Railroad officials might be met for obtaining reduced fare.

The meeting then adjourned with the doxology, and the benediction pronounced by Dr. Kendall.

THE MEETING OF SYNODICAL COMMITTEES, held at noon, was presided over by Mrs. B. F. Potter, of Schenectady, N. Y. The *officers of the Woman's Executive Committee were re-elected* for another year; and the following additional Vice-Presidents: Mrs.

D. R. James, of Long Island, Mrs. C. N. Olds, Columbus, Ohio; Mrs. Allen Butler, Syracuse, N. Y.; Mrs. J. V. R. Hughes, Kilbourn, Wis.

## Afternoon Union Meeting

OF THE EXECUTIVE COMMITTEE AND THE BOARDS OF NEW YORK, OF BROOKLYN, AND OF THE SOUTHWEST.

The devotional services were led by Mrs. Armstrong, of Fayetteville, N. Y.

At 2:30 P. M. MRS. JAMES L. GRAHAM took the chair. Mrs. Green, Mrs. Eaton, Mrs. James and Mrs. Hartt also sat on the platform.

The congregation sang, "Oh, Save Our Land for Jesus."

MRS. GRAHAM said: Dear friends, it is not my purpose to introduce the work of our Boards; it is too well known. But there are leaflets here for those who may not be familiar with it. We are not in conflict with any other, but are the oldest Woman's Home Missionary Society in the United States. We have ten schools and teachers in New Mexico, and are diligently at work in Utah and other territories. Our hearts are burning to send the truth to all. We are deeply interested as well in foreign mission effort. We are not disseverèd from that. Our committee, as originally organized, is devoted to both causes. We carry one in each hand, and both in our hearts. Recently a legacy was left us, $3,000 of which is to go to foreign missions; $2,000 to work in Alaska, on the Prince of Wales' portion, where there is an interesting race of Indians. Dr. Jackson is soon going there to establish a Christian Indian village. A saw-mill will be erected, and he showed me this morning the plans for a school building also. It is expected that it will become the center of good influences. A lady teacher will go into it immediately. One year hence we hope to tell you of real accomplishments.

The Executive Committee have raised, in the past year, $13,770 39 in money, and have sent out boxes worth $13,440 87, a total of $27,211 26. We feel that our Board is nobly represented in home missions.

We cannot give you all the programme we had desired, this afternoon. We will now listen to a paper by MRS. DR. HORACE EATON, of Palmyra, N. Y. It is entitled:

### THE ORIGIN OF MORMONISM.

DEAR SISTERS—A ride of less than three hours on the New York Central, due east, will bring you to the town of Palmyra, in the vicinity of which the system of Mormonism was initiated. In this town it has been my privilege to reside for the last thirty-two years. I speak to you from credible testimony. Western New York has strong soil, and rank weeds are incidental to strong soil. We must own the deceivers. "They went out from us because they were not of us." The deceived were elsewhere. As far as Mormonism was connected with its reputed founder, Joseph, always called "Joe Smith," it had its origin in the brain and heart of an ignorant, deceitful mother. Joe Smith's mother moved in the lowest walks of life, but she had a kind of mental power, which her son shared. With them both the imagination was a commanding faculty. It was "vain" but vivid. To it was subsidized reason, conscience, truth. Both mother and son were noted for a habit of extravagant assertion. They would look a listener full in the eye, and without confusion or blanching, would fluently improvise startling statements and exciting stories, the warp and woof of which were alike sheer falsehood. Was an inconsistency alluded to, nothing daunted, a subterfuge was always at hand. As one old man, who knew them well, said to me, "You could'nt face them down. They'd lie and stick to it." Many of the noblest specimens of humanity have arisen from a condition of honest poverty; but few of these from one of dishonest poverty. Solomon apprehended the danger when he said, "lest I be poor and steal." Mrs. Smith used to go to the houses of the village and do family washings. But if the articles were left to dry upon the lines and not secured by their owners before midnight, the washer was often the winner—and in these nocturnal depredations she was assisted by her boys, who favored in like manner poultry yards and grain bins. Her son Joe never worked save at chopping bees and raisings, and then whisky was the impetus and the reward. The mother of the high-priest of Mormonism was superstitious to the last degree. The very air she breathed was inhabited by "familiar spirits that peeped and wizards that muttered." She turned many a penny by tracing in the lines of the open palm the fortunes of the inquirer. All ominous sighs were heeded. The work was commenced on Friday. The moon over the left shoulder portended calamity; the breaking of a mirror, death. Even in the old Green Mountain State, before the family immigrated to the Genesee country, the then West, Mrs. Smith's mind was made up that one of her sons should be a prophet. The weak father agreed with her that Joseph was the "genus" of their nine children. So it was established that Joseph should be the prophet. To such an extent did the mother impress this idea upon the boy that all the instincts of childhood were restrained. He rarely smiled or laughed. "His looks were always downward prone." He never indulged in demonstrations of fun, since they would not be in keeping with the profound dignity of his allotted vocation. His mother inspired and aided him in every scheme of duplicity and cunning. All acquainted with the facts agree in saying that the evil spirit of Mormonism dwelt first in Joe Smith's mother. Bad books had much to do with the origin of Mormonism. Joe Smith could read. He could not write. His two standard volumes were "The Life of Stephen Burroughs," the clerical scoundrel, and the autobiography of Capt. Kidd, the pirate. This latter work was eagerly and often perused. There was a fascination to him in the charmed lines:

My name was Robert Kidd,
As I sailed, as I sailed,
And most wickedly I did,
And God's laws I did forbid,
As I sailed, as I sailed.

At the early age of fifteen, watching his father digging a well, Joe espied a stone of curious shape. It must have borne resemblance to the stone foot of Buddha which Mrs. House tells us of at Bankok, Siam. All the difference, this was smaller, like a child's foot. At any rate, it has left footprints on the sands of time. "This little stone was the acorn of the Mormon oak." This was the famous Palmyra "seer" or "peek stone" with which Joseph Smith did most certainly divine. Being before instructed of his mother, he immediately set up a claim to miraculous power. In a kneeling posture, with a bandage on his eyes, so luminous was the sight without it, with the stone in a large white stove-pipe hat, and this hat in front of his face, he saw things unutterably wonderful. He could reveal, full too well, the place where stolen property or wandering flocks could be found. Caskets of gold stored away by the Spaniards, or by his hero, the redoubtable Captain Kidd, coffers of gems, oriental treasures, the "wealth of Ormus and of Ind," gleamed beneath the ground in adjacent fields and woodlands. Digging became the order of the night, and sleep that of the day. Fathers and brothers, decayed neighbors, all who could be hired with cider or strong drink, were organized into a digging phalanx. They sallied forth in the darkness. Solemn ceremonies prefaced the work. Not a sod was disturbed by the spades, till Joe's mystic wand, the witch hazel, guided by the sacred stone, pointed out the "golden somewhere." Entire silence was one condition of success. When hours had passed, and the answering thud on the priceless chest was about to strike the ear, some one in a rapture of expectancy always broke the spell by speaking, the riches were spirited away to another quarter, and the digging must be resumed another night. Thus matters went on some seven or eight years. Little or no attention was paid to the performances of Smith near his home. Lovers of the marvelous from other towns now and then came in to see and hear some new thing. People from greater distances visited the several excavations and wondered. Newspapers heralded and ridiculed. But so far it amounted to nothing unless it created a certain atmosphere heavy with myth and mystery favorable to future developments.

The perseverance of Joe Smith was equal to his audacity. Both were boundless. But he alone could never have wrought out the institution of Mormonism. Here we have "black spirits, red spirits and gray." Early in the summer of 1827 a "mysterous stranger" seeks admittance to Joe Smith's cabin. The conferences of the two are most private. This person, whose coming immediately preceded a new departure in the faith, was Sidney Rigdon, a blacksliding clergyman of another denomination, at this time a Cambellite preacher in Mentor, Ohio. Now we have "a literary genius behind the screen." Rigdon was versatile in his gifts, had a taste for theological and scientific discussion, was shrewd, wily, deep, and withal utterly unprincipled. Soon after his appearance on the stage Mormonism begins to assume "a local habitation and a name." Now the angel talks more definitely to Smith, tells him all his sins are pardoned, that none of the sects are accepted of God as His church, but that he shall establish one the Almighty will own; that the North American Indians are a remnant of the Israelites; that hidden beneath the ground are their inspired writings, containing most important revelations for these last days; that these records are to be intrusted to him, and to him only, as none other can see them and live. In the stillness of night Smith

stone on the top of Carmorah, an eminence four miles south of Palmyra, eight north of Canandaigua. Confronted by the very pyrotechnics of Pluto, he averred that he obtained from that place a series of golden plates on which were written in hieroglyphics the records so important in the new dispensation. Accompanying the plates is a pair of huge spectacles, the Urim and Thummum, by the aid of which the tablets are to become available. He soon finds it convenient to visit relatives in Pennsylvania, in which State Rigdon was then sojourning. After awhile he returns with an accurate translation. He appeals to the cupidity of a rich farmer, a semi-monomaniac, and prevails upon him to mortgage his estate to pay for the printing. Here is a copy taken off in sheets from the first edition, kindly loaned me by Major John Gilbert, of Palmyra, the venerable printer, who finished the work in 1830.

But who wrote the book? Surely not Smith or Rigdon. We will go back to the time when Joe Smith lay in his cradle in Sharon, Vt. In 1809 a Congregational minister, Rev. Solomon Spaulding, a graduate of Dartsmouth College, left his native State of Vermont, sojourned a while in ours, and then sought the more genial climate of Conneaut, Ashtabula County, Ohio. He was obliged by the state of his health to abandon preaching. The cast of his mind was peculiar. He often diverted himself by writing romances on different subjects. The mounds of that section of Ohio then attracted much attention. Mr. Spaulding was intensely interested in their study, and even opened up one near his own dwelling. He adopted the theory that these mounds were evidences of the existence of an extinct race, higher in the scale than the American aborigines. He wrote a story in Biblical phraseology, delineating in a fanciful manner the wanderings, wars, exploits and fate of this primeval people. He afterward removed to Pittsburgh, Pa. Some said to him as John Bunyan's friends to the dreamer, "Print it." He left it with a publisher in Pittsburgh by the name of Patterson. For some reason it never went to press. After three years it was returned to its author, who died in 1827. Without doubt, Mr. Spaulding's romance, entitled "The Manuscript Found" is the Golden Bible, or Book of Mormon.

But how came Rigdon or Smith, or both, in the possession of Mr. Spaulding's book? Here we have not absolute certainty. There were two or three ways in which the men and the book could have been brought together. This is common to each—by theft. It is generally believed that Rigdon, while a journeyman printer in the office of Patterson, copied Mr. Spaulding's story; that by some means he heard of Smith, knew his man even at a distance, and was sure Smith's idiosyncrasies would just file in with his own purpose of carrying out a foul and lucrative imposture. There was a ubiquitous tin peddler in those days by the name of Parley P. Pratt. He knew everybody in Western New York and Northern Ohio. He was a member of Rev. Sidney Rigdon's Church of Disciples in Mentor, Ohio. Perhaps Pratt was the carrier-vulture who told Rigdon of the money digger, Smith. The mildest criticism that can be placed upon Mr Spaulding's fancy sketch is that the interest is not well sustained and that it vindicates the languor and hectic of the physical decline of its author. But it is hardly fair to speak of the intellectual merits of a book which was, without question, grossly altered by Rigdon and Smith to adapt it to the code of the Latter Day Saints. When new commands were given by the angel, whether to institute the order of the Aaronic priesthood of Melchisedek or to engraft on the system permission for the polygamous or the spiritual marriage, Rigdon's pen was ever ready to issue the encyclical, similating Mr. Spaulding's Hebraic idioms. Mormonism fairly started, Smith prophesied, Rigdon and Pratt preached, Cowdery baptized, Harris paid. But no prophet is accepted in his own country. Converts came in tardily. The angel said, "Move forward to Kirtland, Ohio." This was near Rigdon's old parish. From this place they were soon expelled by the righteous indignation of an outraged people. Is there any significance in the fact that the Ohio Mormon encampment was located but a few miles from the home of our beloved President Garfield? Had their disgraceful career in his State anything to do with the manly words of the inaugural? Our President "knoweth of these things. We are persuaded that none of these things are hidden from him." God grant that he may have "come to the kingdom for such a time as this." Those who originated Mormonism now stand before the tribunal of that being who has threatened to "silence lying lips." Joe Smith, when but thirty-six years old, fell by the hands of assassins in Nauvoo, Ill., in 1844. Parley P. Pratt died in the same manner in Arkansas in 1856 or 1857. After Smith's decease Rigdon naturally aspired to the dictatorship. But he was defeated by Brigham Young, was expelled from the church and given over by Brigham to the buffetings of Satan. Rigdon has since died, as far as we know without penitence or confession.

An apology might be offered for the above puerile and revolting statements were they not connected with the beginnings of the institution of Mormonism, which, as another has remarked, "presents a problem which the wisest politician has failed to solve and whose outcome lies in the mystery of the future."

One thought more—and it is a solemn one—Mormonism may have risen from neglect on the part of Christian workers. We have no knowledge of the religious influences thrown around the Smith family when living in Vermont. At twelve years of age Joe came to Palmyra, and should have been immediately secured in one of its Sabbath schools. As far as we can learn, not any of the family were invited cordially, heartily, to the house of God. Some of them strolled in occasionally. But no persistent effort was made to induce them to become regular attendants. The children were not repeatedly visited, clothed, or helped to clothe themselves that they might attend the Sabbath school. And this in a community distinguished for the godliness of its early settlers. Depend upon it, there were redeeming traits somewhere even in this family. Joseph Smith's mother was not a malignant woman. She knew the virtues of remedial roots and herbs, and was ever ready to administer and assist when her lowly neighbors were sick or dying. But ladies of piety and culture never visited Mrs. Smith in her home in a sequestered neighborhood two or three miles from the village, never sat down by her side, and, in an unpatronizing manner, sympathized with her in her many cares and labors, wisely dropped a word of friendly advice, sup-

[illegible] days and the Sabbath days, and by all possible methods [illegible] them feel that they loved their souls. [illegible]male member of the church halted as he passed the door of the rude, unpainted house on Sabbath morning, and found room in his capacious family carriage or sleigh for any of the little or big Smiths, that they might go up to the temple of the Lord and learn to worship there. To the enquiry, "Why was not more done to win them to a better life," I received this reply:

"Oh, they were such an awful family. Nobody wanted to go there. Nobody could. Why, they were the torment and the terror of the neighborhood." Our beloved Master "came to seek and to save that which was lost." He was not ashamed or afraid to touch with his hand—mark, with his hand—the demoniac and the leper. Had his dear children in early day reached out theirs to this poor, outcast household, possibly this terrible ulcer of Mormanism might not now be corroding into the very vitals of the nation's purity and life.

The women of the Synods of Western New York are doing much for Utah. Aware that the poisonous virus went out from us, we feel that there is a relevancy, a fitness in our following it with the counteracting, neu ralizing, healing antidote, the gospel of our Lord Jesus Christ. And in this work we are assured we have the co-operation of the women of our entire church. This is of a kind, dear sisters, that goeth not out, but by prayer and fasting. It numbers over 200,000. Its Book of Mormon is translated into many tongues. There are proselytes in every clime. Its representative has been honored in the halls of Congress and has a defence in the *North American Review*. For the sake of our bewildered, deluded sisters, snared in an evil time, for the sake of the country we love, let us labor and pray and give for Utah. We are encouraged to work for the speedy overthrow of this gigantic bulwark from the very nature of its origin. Its basis is not truth but falsehood. Every stone cries out of its wall, "Deceit, deceit." Every beam out of its timber answers back, deceit. May the words of a true prophet be fulfilled without blood, by the breath of Jehovah's mouth and the brightness of his coming. "Because they have seen vanity and lying divination, saying, The Lord saith, and they have made others to hope that they would confirm the word—therefore mine hands shall be against the prophets that see vanity and divine lies, because, even because they have seduced my people, And one built up a wall and others daubed it with untempered mortar. Therefore, saith the Lord God, I will even rend the wall with a stormy wind in my fury. So I will break down the wall and bring it down to the ground, so that the foundation thereof shall be discovered. And it shall fall. And I will say unto you the wall is no more, neither they that daubed it."

MRS. HUNTINGTON added a few words to her morning address, congratulating the ladies of Buffalo on the chapel they are building very near the Mormon Temple in Salt Lake City.

A hymn was sung, and MRS. HAMILTON, of Weedsport, spoke of New Mexico. A hundred years before the Pilgrims landed on Plymouth Rock, missionaries entered that country, accompanied by soldiers for protection. They took the native city,

Santa Fe; compelled the natives to attend the services of the Romish Church, and ever since have controlled them. You can imagine the condition the United States found them in when they took possession in 1848.

In a village of one thousand inhabitants, only one could read. The veins of the average New Mexican contain a mixture of Spanish, Moorish and Indian blood. The men are lazy, and content to sit all day in the sun, smoking. There are also twelve tribes of Indians in the Territory. Our government has been generous to a fault to them; but is beginning to learn to give them books instead of bayonets. If you call on a lady of the Pueblo you must mount a ladder on the outside to the top of the house, and descend another inside. Their Government is good, their soil fertile, their mode of life peaceful. While those Mexicans are compelled to be Romanists, they submit with a strong mental reservation in favor of their native fire-worship. A fire is kept continually burning, and they indulge in horrible secret orgies. The women are mere slaves. Besides these classes mentioned, there are the civilized settlers of the colonies, and the desperadoes from the States. Last, but not least, the missionaries and teachers of our Ladies' Board. We consider our Government one of the best, but it is not a missionary society by any means! So it is said in 1848, "If these people don't bite and devour one another, and trample our flag in the dust, we have nothing to do with them!" The first interest created for their welfare arose from the pathetic descriptions of them made years ago by a lady from Cayuga county, New York, who passed through the territory with her husband, a United States officer. From that seed grew our Woman's Board of Missions. From all those classes comes up a cry for help, with a pathos that is pitiful. The older people feel little hope for themselves, but they long to see their children enlightened. And the voice of patriotism calls us as well.

The ladies were a good deal aroused by the address of MISS LUCY R. CRITTENDEN, of Buffalo. She began by saying that that was a formidable place in which to put a novice. Nothing could induce her to speak, in the face of so many consecrated women, if after nine months of study, such as she could snatch at odd moments, she had not come to know one thing about Home Missions. The thought that most of all impressed her was that there is not much to be said, but there is a great deal to be done. It is not alone the one who can speak that we want, but the one who is willing to walk continuously and unfalteringly along the dusty road, and bear the burden.

A word about two things. And where did I get my facts? Out of official reports from Washington! Do you know what I would do? I would pick out the brightest, most energetic, the wisest man among all our home missionaries, and I would send him right down to labor among our Congressmen! While I don't think the State should interfere with the Church, yet it ought to have knocked out that cornerstone of polygamy long ago! It is felony in the East, and it is by rights in the West! If the first man who set up such blasphemy as that men are gods had been handled as he should have been, the thing would have been stopped in the first place! But the government didn't do it! So the societies are compelled to send out as fine men as any in the East, and they ought at least to be so well equipped that they wouldn't die in the service!

And here I would say to the ladies of Buffalo that we need $1,000 to complete our chapel in Utah; and I want you to get it so that I may personally close this matter up before June 5th, when I go away. [Laughter]. And, in regard to Utah, that article by George Q. Cannon, in the *North American Review*, is false and rotten to the core; and I can prove it!

As to the Indians, I believe, from all the reports, that many good statesmen have been interested in them, but they haven't had a consecutive plan. The true Indian policy—and it looks something like having it now—is that of the British Government. If we had followed it at first we wouldn't have had this trouble. Read George W. Manypenny's book. That "Sitting Bull" is a man of barbaric grandeur! What would he not be and do if converted! He says of Americans: "I am a man; they are thieves!" "The Queen would despise me if I did not fight them!" Who would not say the same thing? God speed the day when we shall have more such men as Carl Schurz!

Go on to Alaska! No civil government there yet, although when our officers went there in the Centennial year for exhibits the people flocked to them and begged for the advantages of civilization! I am glad to hear of the wonderful things accomplished by Rev. Mr. Lindsay at Fort Wrangel. The Ladies' Board, of which Mrs. Graham is president, nobly supplemented it. There is a cry for more men. Congress should do something! Don't be discouraged, ladies! You may yet move that estimable body! There is a call for $20,000 for a school at Hampton. The Government might give it, and then the ladies could respond to a similar call for a boys' school at Sitka. Those people in Alaska knew nothing about molasses rum until United States soldiers enlightened them! Wherever they go they carry whiskey and disease.

You should know that Alaska is not the place for polar bears alone. There are the richest, most abundant minerals, and the most wonderful fisheries; and tribes whose promise is equal to their need. [Applause.]

REV. D. J. MCMILLAN gave an account of his trials, adventures, dangers and successes in Utah as a missionary since 1875. The Mormons profess to read the Bible and pray like other Christians, but in reality the name of Jesus is only known among them in profanity.

REV. JOHN MENAUL, of New Mexico, thanked the ladies for their kind aid given to the work in that field; showed several curiosities; spoke of the necessities; and declared that he verily believed that it is for the ladies to answer the question, What shall we do with the Indians? for neither the State nor the Curch seems able to answer it. The boarding-schools will save them.

REV. S. A. STODDARD, of Fort Gibson, I. T., followed and related incidents concerning old missions among the Indians.

After a parting word by Mrs. Graham, Mr. Stoddard pronounced the benediction.

Should have been inserted before printed account of Meetings in Gen'l Assembly.

Minutes of Meeting of Woman's Exec. Com

Tuesday May 17th 1881.

Present, Mrs. Green, Mrs. Haines, Mrs. Langdon, Mrs. McAuley, Miss Marshall and Mrs. Brownell. Meeting opened by reading of Scripture and by Mrs. Green and prayer by Mrs. Haines. Minutes of last meeting read and approved. Motion made and accepted that offer of Mr. Werden, that Thursday 11th August, at Asbury Park, in the afternoon and evening some hours should be reserved for the Woman's Exec. Com. Mrs. Meigs came in with her sister Mrs. Jacobs. Mrs. Posey of Phil. has written Mrs. Haines inquiring about the mite boxes their character and cost. Decided that no objection can be made to our mite-boxes being shown but a request will be made to have another pattern made so that shall be no confusion between the two.

A note from Miss Shurtleff expressing her willingness to go to Cincinnati and is ready to go to Jersey when the Com. shall appoint. Moved and seconded that the matter be referred to Mr. Boyd and Mr. Eaton. Prof. Shearer writes regarding employing Mr. & Mrs. Durand. Gives them high character, and thinks they would be quite reliable in such position. $15.00 each a month has been promised them. No moneys had been rec'd by them for month of April. Thought advisable to request Mr. Boyd to send $250.00 if that amount had been rec'd to cover their expenses

Motion made and accepted that half of Mrs. Durand's traveling expenses be paid by us.
Letters rec'd from San Carlos Arizona from Miss Stuart and Mrs. Chandler, reporting their safe arrival. Moved and seconded that Mrs Haines write to Col. Tiffany for him to advance money needed by these ladies till money be sent by Gov't. Mrs. Bailey's society has assumed the expense of the $30.00 due Miss Harris, and the Com. will accredit them with this. Letter read from A. Whiting of the Qua-paw agency reporting school of 86 pupils, and expressing wish for papers, toys, etc. to please the Indian children, the necessaries coming in generously from the Gov't. Mrs. Green proposed a notice of this being put in July no. of Pres. Home Missions. A letter from Prof. Coyner stating the school is in need of the enlargement being made this summer, will amount to $3000.00 outside the furnishings. He propose for us to undertake 2612.00 instead of the 3000 as promised, the difference being an old debt which he will cancel. The surplus which will be 1500 he proposes to pay on his own account, if it does not come in by Sept 1st. Prof. Coyner here came in and explained his reasons for this adjustment.
He stated he would like to have 1500. now before he goes. West, half the balance to be paid

the 1st of July and the other half the first of August as the building has been promised to be finished by the 10th of that month. He spoke of the great wisdom in bringing in others besides the Mormon children into the Institute, as they belong for the great part to families of wealthy miners and are paying pupils and doubtless thro' this instrumentality large means may come into the Lord's work. Prof. Coyner offered prayer with the Com. He spoke of a sum of a little over 30.00 he had received from a church in Washington D.C. which it was decided should be accredited to them. Mrs. McAuley mentioned a similar sum in her possession from Chester. Pa. which will be referred to Mrs. Boyd. She also offered 25 colored and framed pictures of Scripture history suitable for schools, which it was thought best to send as freight to Mr. McMillan to be distributed as he deems best.

Treasurer's report brought in by Mr. Boyd in absence of Mrs. Boyd. Full synodical reports were read for the benefit of those who should not be present at the meeting at Buffalo. Receipts had come in from every ~~day~~ synod in the United States. Total for the past year 27,793.24

Moved and seconded that Mr. Bonnell audit foregoing report. Mr. Boyd was consulted, regarding moneys to be given Pres. Coyner. Moved and seconded that Mr. Eaton be authorized to send it as requested if convenient for him to do so. Question as to there being a debt on Fort Wayne. Mr. Boyd thinks there is a misapprehension on this point; that there is no debt. Mr. Boyd reported that on a conference with the Church Erection Board with Mr. McMillan, they agree to pay half the building at Washington 385.00 the other half remaining for this Conf. Moved and seconded that this be paid by Mrs. Boyd. Franklin is now entirely erected by Ch. Erection Board. Spring Cliff was settled. Mrs. McAuley suggested before leaving whether in organizations in the different synods doing foreign work only, it would be advisable to suggest their forming a Society for Home Work as well. Mrs. Sneden gave as her opinion that it could always be done as long as it is not with the idea of lessening their gifts to Foreign Missions.

The manner of organizations and methods of work being left to the Societies themselves.

Moved and seconded that the Com. appropriate 4000. or for Mr. McMillan's work in Utah. Moved and seconded that Mr. McMillan inform us when he needs

his money and for what objects. Also that the balance of 385.00 for Washington still unpaid be settled. Letter read from Mr Williams, Niobrara, stating the need of another man to take his place to allow him to take another position. Moved and seconded that an appeal be made to the Board to increase Mr. Williams' salary as his losses have been heavy owing to the late floods. Meeting adjourned.

June 6th 1881

The Woman's Exec. Com. met in their room on Tuesday morning at 10. After the reading of Scripture and prayer the meeting was opened for business. A letter from Mrs. Gillette was received explaining her absence from three meetings, saying good-bye, and asking at the ~~next time~~ meeting of Synod that her name be removed from the roll as she considered herself almost useless. Mr. Leonard came in to consult the Com. in regard to extending his chapel at Springville, showing two plans one of which at a cost of 2000.00 would include a reading-room and library. The other at a cost of 1000.00 would merely be an extent to the present building without the Library. These plans were referred to the School Committee. It was proposed that a special Com

be appointed to act during the summer on any questions requiring immediate decision.

It was ordered that a bill for stamps printing, telegrams and traveling expenses of Mrs. Haines be paid by the Treasurer.

It was proposed that Mr. Eaton forward to Miss Elizabeth B. Smith of Colales, N. Mexico. 100.00 toward the school building.

Prof. Shearer desires 250.00 a month in advance. Inquiring in regard to this must be made of Mr. Eaton. Mrs. Quaiffe was elected as Vice-President. Meeting adjourned till the 1st Tuesday in July.

Report given by Mrs. Haines of her correspondence with Mrs. Dr. Eaton of Batavia with regard to publishing in the form of a circular the interesting paper read by her at the Woman's Union Meeting at Buffalo. Some objections appearing after the reading of correspondence from another quarter, motion was made and approved that the matter be presented to Mrs. Eaton by Mrs. Haines in this new phase, and if she

still approve the circular can then be printed.

Letter from Mrs. Parmley, Teges, expressing a little discouragement as to the progress of the work in Teges. Miss Perkins requested all the information she could have regarding the working of these Synodical Com. especially in the matter of urging the formation of new Societies

Wickham to meet their society in the Madison square ch. and give some account of our work in Utah. Also reported a meeting to take place in Phil. Nov. 10th organized by Miss McAuley and Miss Marshall, which Com. agreed would be best to have Mrs. Haines attend. Letter read from Dr. Jackson saying he would be in New York about the middle of November. It was thought best to defer the settlement of the Alaska posts with Mrs. Graham, till Dr. Jackson is in the city. Wickham came in about eleven to continue inquiries contained in her letter. Letter read from Miss Philips reporting a falling off of pupils this Fall owing to the non-appearance of Miss Shields, who is the only one who can talk in the Indian tongue, and the only interpreters they can obtain are Jesuits and to these two facts might be attributed this decrease in attendance. Mrs. Haines has corresponded with Miss Shields who sent a letter from Miss Verbeek giving account of Miss Hammeker's sickness and death. Owing to the importance of Miss Shields' engagements East it would seem a matter for regret to shorten her time here for her return to her school. Decided to refer this matter to Mr. Boyd. Letter read from Mrs. Richard

Folsom of Cincinnati telling of the utter ignorance in the region of the North West of Woman's work in Home Missions, and telling of their missionary with his wife and two children living on $14.00 a month. Agreed to write, postponing a fuller letter till Dr. Jackson has been to Washington to see what he can obtain from the Government. At the request of the Com. Mr. Boyd and Mr. Eaton came in to consult about Miss Shields.

These gentlemen thought best in writing to to Mrs. Hutchinson New Albany, to advise her in writing to Miss Ellis to defer any action for the present, it being probable that the missionary might not be there long. Moved and seconded that the bill for furniture at Spanish Fort be paid by this Com.

Meeting adjourned.

Nov 18th 1881

Special Meeting of Woman's Exec. Com.tee held in their room 23 Centre st. Tuesday

Present Mrs. Green, Mrs. Haines, Mrs. Boyd and Mrs. Langdon. Meeting was opened with the usual devotional exercises. In the absence of Mrs. Brownell Mrs. Langdon was appointed Rec. Secretary pro. tem. Mrs. Haines read letter from Rev. John P. Campbell regarding a paper on Sunday-School work. Motion of Mrs. Haines made and accepted, that after examination of the paper by Revs Campbell and Werden with their approval of the same it be issued as a Leaflet by our Com.tee and that a notice of this appear in the Pres. Home Missions. Letter read by Mrs. Haines from Rev. Mr. Birch of Mott Haven, announcing the decision of holding two meetings in his church in the interest of Home Missions, one for ladies in the P. M. and a general meeting in the evening. Letters were then read from Prof. Albuquerque Theaser of Albuquerque asking for money to refund himself for amount appropriated to furnishing a room for one of the teachers.

Motion approved that the letters be referred to Mrs. Boyd. The coming in of Mrs. James and Mrs. Blake added to our numbers and also to our pleasure. Mrs. Green read letter rec'd by Mrs. Langdon from Mrs. McKee, Nordhoff, California.

Motion of Mrs. Haines approved that Mrs. Langdon

correspond with Mrs. McKee and learn further particulars. Letter read from Miss Wood of Albuquerque asking that her position be defined. Motion made and approved that this be referred to the Meeting of conference to be held in Dr. Kendall's room.

Letter read by Mrs. Haines from —— announcing the gift of 100.00 to constitute three persons Life Members of the H. M. Society and suggesting that something be done to keep up the interest of Life Members. Proposition by Mrs. Haines that if the Board approve a year's subscription to Pres. Home Missions be given each one. Final decision that this with a letter subsequently read by Mrs. Green from Rev. Wm C. Cort requesting that a teacher be furnished for Pangulch station — be laid over till ~~next~~ the meeting of conference at 11 A. M. Mrs. Boyd said she thought the Comtee would be gratified to hear the receipts for the month. Reported $2.268.32 Total thus far for the year $19,782.90. Letter was then read by Mrs. Haines from Lansing. Mich. telling of increased interest in Home Missions.

Dr. Kendall then announced that the hour had arrived for the proposed conference and our Com. adjourned to his room. Suggestion was made that the meeting be opened by prayer — but this was not done owing to the liability of frequent interruptions. Dr. Kendall called upon Dr. Jackson comparing him pleasantly to St. Paul, to give an account of his travels in Alaska where he had

been to establish a mission among the Chilcats in the extreme North and among the Hydahs in the South. Dr. J. said of Alaska that it is a great lumber region, and yet great difficulty is experienced in obtaining it, because there are no saw mills.

Succeeded after some delay and considerable trouble in getting sufficient transported for Chilcat and in two weeks and two days had a house up so that it could be occupied. Dr. J. spoke of his visits to the chiefs of the villages on the river. Said they were very anxious to have schools, one old chief lamenting that he had been born before the missionaries had come. Dr. Corlies, Dr. Jackson said, acted as interpreter for him speaking Cherwook, also Mrs. Dickinson's son, who speaks the native language. There had been he added a Tribal war, but it ceased as soon as word came that the Missionaries were coming. One of Mrs. McFarland's pupils (Tillie) who had had special training was to marry and take charge of the school in the upper Chilcat village. The Indians there Dr. J. said have no definite idea as to the time for observing Sunday, so now on the new building a flag is raised each Sunday morning which can be seen far and near. They are eager for the gospel are unwilling to leave after service, stay and sing and recite the Catechism hour after hour.

Dr. J. finding that the company refused to take lumber to the southern point Hydahs,

decided to take another point; Hoonyah - more accessible. Reported having the frame of a building up at that point before he left. A Mr. Walter B. Stiles, (who has married a younger sister of Miss Austin) whose father is a member of Dr. Ormiston's church, was sanguine that 1000.00 could be secured from his church.

A compromise has been effected on the Chilcat building so that $75.00 would cover the expense for that instead of the 1000.00 originally given as the sum. Dr. J. gave an interesting account of the boys school at Sitka, beginning with the experience of the 7 boys who desirous of breaking away from the filth of their homes had begged that they might sleep in the school room occupied by Miss Austin, promising to keep it in order also to feed and clothe themselves. Through the kindness and efficient efforts of Capt. Glass and his subordinates the old Government Hospital building was secured and thoroughly cleansed, and now a flourishing school is the result. The boys had been taught by Capt. Glass' shiptailor to make their own clothes and the picture shown by Dr. Jackson representing the pupils was looked upon with much interest and satisfaction.

The death rate among them he said, had through the sanitary regulations enforced by Capt. Glass decreased the death rate one half. His account of labelling the boys, having on a piece of tin the number

of the boy and the number of the house to which he belonged, was quite amusing. One boy in the school had been rescued from being shot having been convicted of witch-craft. They had named him Moses Jamestown. Dr. J. mentioned a touching incident of his experience in visiting the home of one of the Chiefs of the Hydahs. Six months previous a young son of this chief had died, and the father desiring to do all he could for this child whom he so tenderly loved, had kept the body until the missionaries whom he had been told would come, should come and give him a Christian burial. Dr. Jackson and Mr. Chapman were assigned the place of honor to sleep which was on the floor beside the dead body of this Indian boy. As soon as the members of the family who were at that time scattered the burial was to take place, Mr. Chapman to officiate. The chief offered his best house (they have several) for church and school. Another telling incident mentioned by Dr. Jackson was that of an Indian pirate whom Dr. Kendall knew about. The man had had both his eyes burned out. He now wants to be taught all about our God that he may go tell his people. There were, Dr. J. said, five of these Hydah villages on the Island.

Some questions were then asked concerning the school at Fort Wrangle. Dr. Jackson said all the adult girls are church members.

They accompany Mrs. Dunbar and take part in the prayer meetings held in the different homes. In response to the inquiry what a scholarship should be in the schools at Alaska, Dr. J. said $75.00 for boys and 100. for girls. He reported having had conference with Mrs. Graham and Mrs. Hartt of the Women's Board of Missions of N. Y. giving them their choice between Bonyak or Hydaks, but that he had not heard definitely as to their decision. Mrs. Green expressed her desire and that of the Com. in general that the matter be definitely settled in writing to that effect. This led to the question of the indebtedness for the buildings at Fort Wrangle. Dr. J. reported that the amount was about 2000 and that it was in notes held by merchants. Nothing approved that means be adopted to remove it. In reply to the question, is there any prospect of help from the Govt. Dr. J. said I remain to be seen. The Dec. nr. of Pres. Home Missions Dr. J. said he had taken the liberty of deviating largely to his account of Alaska! Question from Mrs. Haines as to whether our Com. call for additional copies of this number for circulation. Motion of Dr. Kendall that a recess be taken in order that all be supplied, for a continuance of the meeting, approved. Our Com. spent a portion of the intermission in

Motion of Mrs. Haines approved that

3000 copies of Pres. Home Missions for Dec.

be ordered for distribution. Also that 7.50 be appropriated towards Dr. Jackson securing a wood-cut of the Boys building at Alaska.
Letter read by Mrs. Haines from Rev. G. W. Martin requesting money for Manti. Motion made by her approved that one half the rent due for Hall at Manti be paid by Mrs. Boyd.
Comtee again adjourned to Dr. Kendall's room. Dr. Jackson resumed his account telling of the Pimas, Maricoba and Pappago Indians in Arizona. The first mentioned have never but in a single instance, taken the lives of white men. They have rescued many from danger and death, protected all who pass through the Apache country. Three or four buildings he said were needed among the Pimas, a teacher for each - salary $500.
Of the Pappagos there are, he said, about 6000.
Government promised if a building was given them, the teachers should be secured and supported. Building would cost 2000.00.
Dr. Roberts then followed with an interesting report of his recent experience in another portion of the same field. Ocate was the first point mentioned. Dr. R. thought Mr. Hall's influence and that of his wife invaluable.
He reported that a great blunder had been made in the building in Mora County N. M. He considered it the finest point for Mexican work and

that Mr. Phillips was the best man to carry it on. Building costs 2000.00.; can be had for 1500, 500 needed to put in in order. It could be used for school and church purposes. Motion made by Mrs. Haines approved, that if the Board of Church erection will help, the amount needed by Mr. Philips should, if the Board approve be advanced. After some discussion, it being thought advisable from what Dr. Roberts said of the property that it be secured at once the motion of Mrs. Haines was re-considered and the vote unanimous that Mr. Eaton advance the amount needed.

Albuquerque — Rev. Mr. Perea, Dr. Roberts said had an excellent reputation. The Perea family the most influential family in New Mexico. Mr. Perea had been cast off by his family.

Albuquerque school. — Sad report Dr. R. gave of Miss Philips' appearance — the result of being overtaxed with work, does the cooking of the entire school. The opinion general that she cannot hold out much longer. Dr. R. thought Miss Auld an excellent teacher and spoke of Miss Wood as very desirable. His report of Miss Verbeek in her position rather unfavorable, has some peculiarities that render it trying to those associated with her. Dr. R. reported a falling off in number of the pupils from 50 to 23 since Miss Shields left. There were, he said three causes why the children

had not returned to the school. 1st On acc. of Miss Shields' absence, she being the only one that could talk to them in their native language. 2nd The jesuit influence so strongly brought to bear upon them. 3rd The vacation, returning to their homes having unsettled them. Dr. Roberts did not approve of the present location of the school. Spoke of Miss Hood as needing money. Mr. Boyd said he would send the needed amount. He read action of the Board. 200.00 to be sent monthly for Pueblo Schools.

Colorado. Dr. R. mentioned with approval names of teachers there; Miss Higgins, Miss Kipp, and Miss Reynolds, also mentioned favorably Miss Barlow who has an independent school. There need be no fear, he said, in commissioning Miss Reynolds for Trinidad.

Mrs. Gibbals of Los Vegas, was, he said, filling the gap at Gloriella.

El Paso. This, Dr. R. said, was to become a large city. All the railroads projected are to pass through them. Prospect of a church to be built. 2 lots given; Money already subscribed.

Nebraska. Here Dr. R. attended a meeting of Synod.

Moved and seconded that this bill be paid.

Secretaries having sent in word they were ready for a conference, the Com. went into their room.

The first matter that came up was the appointment of Miss Lizzie Tubbs. The commission was to have been sent and the matter will be settled at once. Prof. Coyner having approved of the Mt. Pleasant school, Dr. Kendall wished his letter to be placed before Mr. Mr. McMillan. As to change of location of Tilly and her husband, Dr. Kendall expressed himself as much in favor of the nearer point Shakan. Mr. Green suggested that it be left that if Mrs. Graham can support the couple as well as the whole mission we give them up to the other Board. Dr. Roberts inquired if Mrs. Graham declines the undertaking of the whole whether the Exec. Com. will undertake it. Mrs. Green answered in the affirmative. It is thought best to communicate with Mrs. Graham on the subject. The paper from Mr. McNiece on Mormonism was next in order. One objection to it being its too great length. Then the distribution of it among the Mass-Meetings. The secretaries think it best to keep the statement distinct by itself and not ap-

Women's Executive Com. met as usual in their room 23 Centre st. Tuesday morning. Present Mrs. Green, Mrs. Hanies, Mrs. Boyd and Mrs. Bonnell. The meeting was opened by reading of Scripture by Mrs. Green and prayer by Mrs. Boyd. Treasurer's report of $429.21 was adopted. The following resolutions were then cordially and unanimously adopted.

1st Resolved that we unite with sincere gratitude to God the communication of Feb. 13th from Mrs. J. H. Burtis of Brooklyn, N. Y. notifying us of the decision of the Women's Board of Home and Foreign Missions of Long Island to connect the Home department of their work with the Women's Ex. Committee of Home Missions. We consider this a fresh mark of the loving kindness with which the Lord is

guarding and guiding the Women of the Pres. Church in their work for Home Missions, and with cordial welcome to our sisters from Long-Island we trust and believe great blessing will come from this proposed official co-operation.

Resolved - That although Mrs. D. R. James is already one of our most valued vice-presidents we desire to have the Board of Long Island still more largely represented in our list of officers; also, needing more working force on our Exec. Com. we ask that Board to nominate one of their number whom we may elect as an additional secretary. It is necessary to have women living near our headquarters, New-York City, to attend to the duties required."

Letter read from Mrs. Pyle saying they felt it would not be necessary to ask Mrs. James to come out to their meeting but expressing a hope that one of the ladies on their return from ~~Springfield~~ in June, or some gentleman perhaps connected with the Board, might stop over at Cincinnati at a public meeting they hope to hold, and give them some information and help by some remarks. Motion made and seconded that Mrs. Green answer this letter and express our satisfaction at their decision, and also

hold out the prospect that we will find some one to speak for them in Cincinnati.
Mrs. Hanies reported concerning the Leaflet "Aims of 1882", a slight change having been necessary in the opening which had been approved by Dr. Kendall. Letter read by Mrs. Green from Miss Cuyler of Philadelphia, requesting information of literature bearing directly upon the Home Field for the better working of their society. The report on Shakan is that it is very doubtful whether Tilly and Louis shall be settled there. Letter from Rev. Willis Weaver from Indian Ter. to Dr. Kendall. He expresses a hope that the girls' Park Hill N.T. seminary at Park Hill will soon come under their care. He considers it a "magnificent opportunity," for extending their influence.
There is room for 150 pupils in the building. He desires suggestions from the Board as to what can be done. Motion made and seconded that this letter be discussed before the Secretaries. Letter was shown written by an Indian woman from the Cherokee Nation, at the request of Rev. Mrs Haynorth. Her penmanship and mode of expression were beautiful, and she pleads strongly for help to come to them. Motion made and seconded that this letter be published as a forcible argument in favor of Indian education. Letter read from Mrs. Perkins, Ft. Defiance

saying their encouragements and blessings counterbalanced their trials and annoyances. Letter read from Mrs. Kate P. Bryan with encouraging accounts of their work in Allegheny. Letter read from Miss Wray saying her heart was in Utah and she was longing to get at work, but as her health would always be precarious motion was made and seconded that Miss Wray be directed to wait till the Fall on account of her present delicate condition. Miss Morton is to be supported by the Board of the S. W. and she is pleased to go to S. Colorado. She would like 75.00 advanced on her salary as her means are limited. Letter read from Mrs. James expressing satisfaction at the decision of the ladies of Cincinnati, and regretting her regular engagements in the Industrial school would prevent her meeting with us regularly on Tuesdays. Letter read from Rev. Mr. Johnson of Springfield Ill. offering the 2nd church for the free use of our Com. at meeting of Gen'l Assembly. Letter read written at the request of Mrs. Cameron speaking of a Miss Hills they think would be very acceptable and efficient as a teacher. Miss C. B. Phillips they consider would answer better as an assistant and beg she be recommended to the Board to act in this capacity.

Then followed various testimonials regarding Miss Hill's character and ability. Also a letter from Miss Hills herself from Oakland Cal. Moved and seconded that there shall be further correspondence with Miss Hills.

Letter from Mrs. Hoadley Nebraska regarding work in that part of the country. She is trying to simplify the workings of their societies and will hereafter have funds for Foreign Missions go to Chicago and the Home funds to our Comtee. They had felt somewhat hurt at an article written by Mrs. Knox for Jan. No. Pres. Home Missions underrating their work.

Letter from Mr. Cort regarding the temporary removal of Miss Hartford, whom he had in his house for the present, and asking advice for further action. He suggests her going to Pan Wetch where a teacher is much needed. A more attractive and younger teacher he thought preferable for Cedar City. Letter from a minister in Detroit asking for information on various points for their work. Letter from Miss Shields saying she felt it necessary to send in her resignation. It is thought best that Miss Shields should be begged to reconsider her decision especially as to giving up the work altogether. We received an invitation to meet the secretaries in their room and hold a meeting in consultation.

Conference with Secretaries, Mr. McMillan being present. The burned hospital in Sitka was mentioned and Dr. Jackson has remained in Washington to see what the Government would do for us in replacing it. Regarding the settlement of Tilly and Louis in Shakan, nothing has as yet been done. About the girls' school in which Mr. Weaver is interested nothing has been done about it. Letter from Mrs. Kate Plummer Bryan promising $500 for Miss Shields, or her successor, was referred to in view of Miss Shields' resignation. Dr. Kendall thinks Prof. Shearer will smooth things over with Miss Shields on his return and that she will think better of her decision. Mr. McMillan was asked where teachers were wanted. Two teachers will be needed at Paraman Utah. One for Springville. The three to fill places soon to become vacant. In Cache Valley, two points, Richmond and Mendon. 3 points in Bear Lake Valley. Nine teachers wanted in all. In Salina we have a lot not yet paid for, half way between Richmond and Gunnison. At Marvin we have a lot already paid for. At all these points buildings are needed. Mr. McMillan thinks Miss Hartford should go back to Cedar City. The property there which was offered for $1000.00, Mr. McMillan thought could be obtained for 800.00 after a little. About enlarging the school at Mt. Pleasant, Dr. Kendall

asked if we had sufficient money, and thinks it a good object to put forward. A lady in New Jersey had given a sum of money for Utah and the Board concluded to put 2000.00 in Payson at first and then decided to divide it between two chapels. Mr. McMillan mentioned a Mr. Cyle as a good candidate for the Mt. Pleasant school. He has been successful both as a teacher and a preacher and his wife is an excellent musician. Dr. Kendall thinks we might for the present secure Mr. Cyle as a pastor of the church, the undertaking the school to come later on. Mr. Parks has written Mr. Boyd that he has bought the lot at Hiram. Mr. McMillan thought it would be well to write Prof. Coyner about Miss Cora Bartlett. Mr. McMillan mentioned a Miss Nelly Stevenson of Jacksonville, Illinois, as thoroughly competent. A Miss Rhetta Shirley and a Miss Danette M. Sloane of Chillicothe. A Mrs. Robbins of East Rockport, Ill. 53 years old, he thought might answer as a matron. Miss Fanny E. Cyle, Urbana, sister of the Rev. Mr. Cyle he thinks would go. Mr. McM asked if an addition should be made to the building at Ogden. It is thought best to do this. He also inquired as to securing a building in the outskirts of Salt Lake City. He thinks, the rent would be about 240.00 a year, the purchase money about 2400.00. He thinks however it might be well to

rent only for a year. The motion was made and seconded that Mr. McMillan shall rent a building for three months at a time, till we see what success attend it. Com. returned to their room and adjourned to meet on March 7th.

S. S. Brownell, Rec. Sec.

March 7th 1882 Woman's Executive Comtee met in their room Tuesday morning. Present Mrs. Green, Mrs. Haines and Mrs. Langdon. Opening of meeting delayed there not being sufficient number present to constitute a quorum. In the meantime minutes were taken by Mrs. Green of statements made by Miss Robertson, then present, concerning the proposed plan for erecting a school at Tallahassee on the site of the old building destroyed by fire. Meeting opened with usual devotional exercises. Owing to absence of Mrs. Brownell and Mrs. Boyd Mrs. Langdon was appointed Rec. secretary pro tem. as well as Treasurer. Minutes of previous meeting read and approved. Treasurer's report showed for Feb. $3.792.19. On motion, accepted. Letter read by Mrs. Haines from Rev. Mr. Weaver Indian Territory appealing for help for the Cherokees. Mrs. H. said the way was closed for help in this direction until further information is received. Bill presented by Mrs. Haines for postage, Clerical help, Expressage etc. amounting to 158.18 Motion accepted that this bill be paid with

that in view of the decision of Miss Shields to resign her position in the school at Albuquerque our Com^tee request the Board to delay in order of

give time for further consideration. Report read from Miss Phillips regarding the School at Albuquerque. Motion made and accepted that it be referred to the Secretaries. Report from Miss Auld also read; encouraging in character. Request from Miss Auld that her salary be forwarded as soon as possible it being needed. Motion accepted that this be brought before the Secretaries. The entrance of Dr. Jackson and wife led to a conference with Dr. J. He recommended a female teacher for Chilcat mission; thought the salary should be 600.00. Thought we ought to improve the providence that had permitted the burning down of the building occupied as the boys' School at Sitka by soliciting funds for a new one to be erected. Money he said should be furnished for Tillie and Louis to meet expenses in going to the Chilcats. Rev. Mr. Taylor, Dr. J. said wants a man and woman for the Mogui Mission. Salary for both $1000.00. Recess then taken, after which meeting adjourned for conference with the Secretaries.

Miss Robertson's report on Tulhassee taken by Mrs. Green.

After the burning of the school at Tulhassee Congress appropriated $5000 and the school was removed 40 miles away by Foreign Board. The Creeks were slaveholders. After the war slaves settled around Tullahassee which induced owners to remove. No mission for these slaves. Miss Robertson advises a school established at Tulhahassee rather than at Muscogee. A school of twenty-five is already carried on by Mrs. Robertson. The number of children is 1500 and boarding schools are the only kind because of the needed home influence. The Creeks are too poor to give anything towards building. Com. of Indian affairs decides that the $5000 appropriated can be used only on the site of the former building. A boys' school is more cheaply carried on because of the labor of the boys on the farm. $100 is necessary for the support of a girl, and 70. or 75. for a boy. This school which is now under the care of Mrs. Robertson, Mrs. Craig, and Miss Green, is under the charge of the Board of the N. W. but after the present year their support from that Board ceases. It would seem from Miss R's statements that a school should be establish

for the girls. She does not know whether her mother would take the position of teacher although she would be well fitted to do so. It is a safer locality for a girls' school being farther removed from the Nation. A school for fifty children could be put up at Tulahassee for $10.000 should be built of brick, there is a good deal of material on hand — Miss R. thinks if the Exec. Com. would undertake this school, Congress would give all needed assistance.

## ABSTRACT OF REPORT OF WOMAN'S EXECUTIVE COMMITTEE OF HOME MISSIONS TO THE BOARD OF HOME MISSIONS,

FOR YEAR ENDING, MARCH, 31, 1882.

We owe, by the blessing of God, much of the success thus far attained, to our method of organization under supervision of the synods, and in close co-operation with the Board of Home Missions. Among other causes of thanksgiving, we would record the recent connection of the home department of the Woman's Board of Missions of Long Island, with the Woman's Executive Committee—a step which greatly helps unify the work of Presbyterian women for home missions, to the common advantage of all concerned.

We have been called to mourn the loss of one of our Vice-Presidents, Mrs. Dr. Gillett, of Harlem, N. Y.

Several members of synodical committees have also passed to higher service above; viz.: Mrs. Andrew M. Millar, who was with us at our last annual meeting at Buffalo; Mrs. V. A. Lewis, more lately of California, and Mrs. M. B. Bassett, of Texas, whose presence could ill be spared by the scattered workers in that widely extended area.

The fire at Sitka last January, renders special effort necessary in regard to the mission there.

Work among the Indians, Mexicans, and Mormons, has been prosecuted under your direction as vigorously as the means provided seemed to warrant.

The money raised by the women and children of the church, though nearly double the amount of the year before, is still insufficient to meet the immediate demands for new mission schools and chapel buildings. But there are many stations which it is desirable that the Presbyterian Church should occupy as soon as possible. The mission school usually develops, by the blessing of God, into a church, needing a regular pastor.

A number of Sabbath-schools are beginning to adopt a plan suggested, by which, in a Sabbath-school as a whole, our children may be trained to take part in the work of missions undertaken by the Presbyterian Church.

In regard to the future, the consolidation of some of the synods, carrying with it that of the attendant synodical committees, renders it doubly imperative that the women, carefully chosen by the synods from each presbytery with a view to such division of labor, should each attend to the duties required in her own presbytery.

Our last circular, herewith presented, gives some idea of our "aims" for the coming year. (see next p.)

In behalf of the Woman's Executive Committee of Home Missions.

WOMAN'S EXECUTIVE COMMITTEE OF HOME MISSIONS

OF THE PRESBYTERIAN CHURCH,

23 Centre Street, New York City, P. O. Box 1936.

# OUR AIMS FOR 1882 & '83.

A correspondent asks, "What are your aims for 1883?" In reply, we will state here the aims, in a more strictly business aspect only, of the Woman's Executive Committee of Home Missions this present year.

I. In ALASKA.—At Chilcat, Sitka, Hoonyah, Fort Wrangel, and Willard, Missions are established, and need to be sustained. Money is due upon buildings, and the furnishing required at Sitka, and at the new Home at Chilcat.

We aim first to pay debts already necessarily contracted, and to use to best advantage any money which may be given to make these Missions more effective.

For every $100 a year, a boy can be supported in the Boy's Training School at Sitka, or a girl at Fort Wrangel, or the lower Chilcat village; for every $35 a year, a child in one of the day-schools.

A Steam-Launch for general use between the Mission stations is greatly needed.

II. In UTAH and IDAHO.—In these Territories, where as yet Mormonism reigns almost supreme, opportunities are offered to the Presbyterian Church to entrench itself, which may pass away, if not improved at once.

We thank God that thus far, the promise to our Church, as to Joshua, has proved true in regard to Utah, "Every place that the sole of your foot shall tread upon, that have I given unto you."

Our aim is first to put every School already established, now thirty or more in number, on a firm and permanent basis. Some of them, through very success, need an additional teacher; thus the expense connected with each will be greater. Then we aim to plant Schools in new localities, knowing that each will grow into a Church requiring a pastor. Fifteen new teachers are to begin work this fall.

Again, a School requires a place in which it can be taught; and the "coming" pastor, a place in which to preach. Our aim is to erect Chapel-School-rooms, as many of them, and as soon as possible. In such buildings, by the blessing of God "in continuance;" such as may well make a false priesthood tremble.

In order thus to put mission effort into material form, we need at each station from $700 to $1,500. Funds of three Chapels are already under way; the money for them having been gathered by contributions to the Thankoffering Memorial fund. We aim by every such light-house to help dispel darkness now almost literally making itself felt far outside the bounds of Utah.

The Salt Lake City Institute, under the able supervision of Prof. J. M. Coyner, must depend still for partial support upon the friends of Home Missions. The Wasatch Academy, a new Normal School for girls, is to be opened at Mount Pleasant, Utah. The prospects of success are hopeful.

III. In **NEW MEXICO**, and **SOUTH COLORADO**, not only are Jemez, and Zuni, Ocate, and Corrales to be cared for in the one, and Conejos, San Rafel, etc., in the other, but a new enterprise at Mora, New Mexico, has been commenced under very favorable auspices. Money is needed to pay for property, repairs, and school furniture.

The Pueblo Training School at Albuquerque is doing excellent work; but many more pupils at $50 each, might be received into it.

IV. In **ARIZONA**, a School of about 70 Navajoes must not be neglected; nor that among the Apaches at San Carlos. Help is asked for among the Pimas and Papagoes, and the Board of Home Missions has already turned its "hand on the desolate places" of the Moquis, where fresh effort is to be made to carry the gospel into the Pueblos.

V. What shall we say more of Schools asked for among the Western Shoshones, **NEVADA**; in **UINTAH, UTAH**, in **TEXAS, NEBRASKA**, and in the **INDIAN TERRITORY**, where parts of thirty-one tribes are congregated, and where Indians are calling earnestly for Presbyterian ministers and teachers? In the latter, one or more Boarding Schools are to be established.

VI. In **TENNESSEE**, we aim to give some assistance to the Woman's Synodical Missionary Society there, in its energetic efforts to do Home Mission work within its own bounds.

VII. Some of the work among the **CHINESE** in this country, is now being prosecuted under direction of the Board of Home Missions.

VIII. We aim to systematize the distribution of "*Boxes of Clothing*," etc., to Home Missionary families, in a way that all requiring aid of the kind may receive it; and that none be over-supplied. For information in that department apply to Mrs. C. H. Langdon, 28 Centre Street, New York City, P. O. Box 1988.

Clothing and other supplies are called for constantly at some of our Mission Schools. We seek to inform Sewing Societies, etc., where such gifts will be acceptable.

IX. We aim to spread information in every hopeful and suitable way, as to the real need there is of doing Mission work within the United States. Sad facts come to us of degradation and wickedness in some parts of this land, which outrival accounts received from so-called heathen countries. Grand and encouraging facts come to us of success attending the preaching and teaching of the gospel in recesses before unreached. Simple methods of organization and of work need to be made known, and many explanations to be given in detail.

To this end, we ask for contributions to our Printing and Postage fund. The distribution of leaflets, etc., has become a feature in our work very satisfactory in its results. In case of every issue thus far, we have been amply repaid for any immediate outlay. Seed must be sown in order to a Harvest.

Another aim in the same line is to increase the circulation of the paper "PRESBYTERIAN HOME MISSIONS," now the organ of the Board of Home Mis-

sions. We note an increase in receipts to the Treasury, in proportion to increase in its circulation. We ask that each one to whom this paper now comes, will invite others to a like benefit to themselves and the cause.

The above gives, of necessity, but an imperfect list of the aims in view; but a glance merely, at the openings into which the Board of Home Missions might enter, were the means at its command. For such means, to these ends, the General Assembly has directed it to look to the women and children of the Church. Therefore, we add, our aim is to secure the ORGANIZATION OF HOME-MISSIONARY SOCIETIES in every CHURCH, and SABBATH SCHOOL, and in every PRESBYTERY, in order to raise the money required, the work all to be kept under the over-sight of the Synods; also we aim to have reports of it from every section brought by our Woman's Executive Committee into one Annual Report to the Board of Home Missions, and, through it, to the General Assembly.

SUMS NEEDED FOR VARIOUS OBJECTS:

| | | | |
|---|---|---|---|
| CHAPELS, from | $700 to $2,000 | ORGANS, with freight charges, each | $85 |
| SALARY of Missionary teacher | 450 | SCHOLARSHIPS in Alaska Boarding schools | 100 |
| FURNISHING of school-rooms, and rooms in Boarding schools, from | $50 to 100 | Scholarships in Utah | 125 |
| | | " Albuquerque, N. M. | 50 |
| Current EXPENSES of a Day school, per year | 50 | " Utah and Alaska Day-schools | $15 and 25 |
| BELLS, each | 200 | | |

The above objects can each be greatly increased in number, as money is promised for them. The Woman's Executive Committee of Home Missions has to pay also the travelling expenses of teachers to the field, and to meet Printing, Postage and Office expenses; and to supplement many wants at the Missions, not provided for by special appropriations by local Societies. Hence the great need of donations to the *General Fund*.

FORM OF BEQUEST FOR WOMAN'S EXECUTIVE COMMITTEE OF HOME MISSIONS.

"I give and bequeath to the Board of Home Missions of the Presbyterian Church in the United States of America, incorporated by the Legislature of the State of New York, the sum of dollars, in trust, to be appropriated and applied for the use and benefit of the Woman's Executive Committee of Home Missions of the Presbyterian Church."

BEDDING, FURNITURE AND CLOTHING.

Such articles are urgently called for at various points, especially at Indian Stations. Basted patch-work, handkerchiefs of muslin basted to hem, Mittens, Hoods, Tippets, Aprons, Collars, and even larger articles, can be sent by Post Office, sewed in calico or muslin, with paper over it well tied with twine, if the packages are made to weigh not over 4 pounds. Magazines, Illustrated papers, Pictures, Stationery and Sewing materials, worsteds, and materials for fancy-work can go in same way.

*Organs* and *Bells* are much needed as a means of attraction, and to secure prompt attendance at Church and School.

## METHODS OF RAISING MONEY.

Organization of some kind, however simple, is important to permanent success. In addition to plans usually adopted by Societies, such as subscriptions, collectors, sale of work done, etc., the Woman's Executive Committee recommends the making of *Album Quilts*, directions for which will be sent on demand; also the use of *Mite-Boxes*, which it furnishes in blue and gold, gratis to any person, or family, Sabbath School class, etc., agreeing to drop into each at least one cent a week, to be used for some object in charge of the Board of Home Missions.

*Birth-Day Boxes* are doing good service, and will also be given free to any family or Sabbath School class, on condition that every birth-day in the circle shall be celebrated by a deposite in the Box of as many cents, or dimes, to the advantage of Home Missions, as the years thus commemorated.

*Envelopes*, are also prepared for convenience in gathering systematically, offerings made to the cause of the Board of Home Missions.

*Bricks*, in card form, to be sold at 10 cents each toward the erection of Chapels in Utah, may be had at the rate of 10 cents a 100. Strangers will please apply through some Presbyterian Pastor.

In conclusion, well may we say, "Who is sufficient for these things!" Certainly not the few who have as yet taken part in the work. Certainly not the whole Presbyterian Church in itself considered. But, if "strong in the Lord, and in the power of His might," we only follow as He leads us on, we are sure of success and victory.

Trusting that Christ Himself may so "dwell in our hearts by faith" that we all may be "rooted and grounded in love" to Him and to His cause, we close with a motto given us at our first annual meeting: "Ask for great things, expect great things, attempt great things, and you shall receive great things."

NOTE.—For information in detail, write to Mrs. F. E. H. Haines, or Mrs. D. M. Miller, Secretaries. For Mite-Boxes and Envelopes, to Mrs. Ashbel Green, Money should be sent to Mrs. M. E. Boyd. Address for each, 23 Centre Street, New York City, N. Y., P. O. Box 1958.
